SEO Audit & Changelog: Web Design

URL: **https://rockstar-marketing.com/web-design/** · WP ID 11546 · Builder: WPBakery · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Last modified in WP: 2023-01-06 · Page 6 of 33 in the site queue

Summary. This is the site's **second-strongest ranking page**. Semrush has it at #2–4 for nine "Destin web design" variants (e.g. "destin web design" #4 at 170/mo, "website design destin" #3, "destin website design" #2). It also shows up for Santa Rosa Beach (#9) and Fort Walton Beach (#15–17) web design terms, even though dedicated city pages exist for both. That's a sign the city pages are weak and this page is doing their job.

Decision: this page owns **"Destin web design"**. `/destin-webdesign-company/` competes for the same term and doesn't rank in the top 10. Review it in its own audit (page 14) as a candidate for a **301 redirect into /web-design/**. The weak spots on this page: no real H1, 0 links, no portfolio, nested pasted markup (14 divs), a repeated city list with a typo ("Grayton Breach"), and outdated service items.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. *Verify live* = check in the browser.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	H1 / headings	The only heading is the H4 "WE BUILD BEAUTIFUL, FUNCTIONAL WEB SITES". New H1: **"Destin Web Design & Development"**, with a full outline (§3).
2	P1	SEO title	Empty. New: **"Destin Web Design Company | WordPress & Shopify | Rockstar Marketing"** (66). Shorter option: "Destin Web Design Company | Rockstar Marketing" (46).
3	P1	Cannibalization	/destin-webdesign-company/ has the same intent. Consolidate (301 → /web-design/) or retarget it during audit #14. Meanwhile, link from here to the FWB, Santa Rosa Beach and Pensacola web design pages so Google sends those city queries to the right URL.
4	P1	Intralinking	0 internal links. Add links to the 3 city web design pages, /seo/, /social-media/, /video-marketing/, /services/, /clients/, /faq/ and /contact-us/ (§4).
5	P1	No portfolio	A web design page with no screenshots of websites. Add 4–8 portfolio tiles (screenshot, client, type, link to the live site). Your sister sites (Coastal Cars, Crab Island Tiki Tours, Original Shell Island, OCI, etc.) are ready-made examples if they're your builds.
6	P2	Broken markup	The NAP text block contains **two** pasted copies of a rendered WPBakery row (14 nested divs). Replace with a clean paragraph.

7	P2	Outdated services	"Facebook Fanpage and App Development" (Facebook page apps were retired), "Custom Blog Skin Design", and "Mobile Websites" (every site should be responsive). Replace with current offerings (§5).
8	P2	City list repeated	The same 9-city sentence appears twice, with the typo "Grayton Breach" and "Florida area's". Use it once, correctly, with links.
9	P2	Image alt	The logo-strip image has alt "Destin Web Design", which is keyword stuffing on a non-descriptive image. Change it to a descriptive alt. The cert image has alt="".
10	P2	Meta description	162 characters (truncated), with "Wordpress" miscapitalized, and it names Niceville (not on the page). Rewrite (§2).
11	P2	Experience claim	"Built our first website in 1996" = 30 years in 2026. Make it consistent site-wide (other pages say "26" and "27 years"). Use "since 1996" so it never goes stale.
12	P2	Process & pricing	The page promises "step by step what the process will be" but never shows it. Add a 5-step process and a starting price or price range (strong conversion lift for web design).
13	P3	Map embed	A Google Maps iframe is stored base64-encoded in a raw HTML block. Keep it (it already has loading="lazy"), add `title="Rockstar Marketing office location in Destin, FL"`, and move it next to the NAP.
14	P3	Builder junk	3 spacers, 8 paragraphs, an empty final row. Delete them.

`<h2>` **Websites Built to Rank and Convert**
`<p>` A beautiful website that nobody finds, or that doesn't turn visitors into customers, is an expensive brochure. Every site we build starts with strategy: who your customers are, what they search for, and what you want them to do. Then we design an intuitive site structure, a clear brand message and calls to action that guide visitors toward your goals, with built-in SEO on every page. [→ /seo/]

`<h2>` **Our Web Design Services**

`<h3>` **Custom WordPress Websites** `<p>` Custom-designed WordPress sites that you can easily update yourself, with the speed, security and SEO setup done right.

`<h3>` **Shopify & eCommerce Websites** `<p>` Online stores on Shopify or WooCommerce with product pages, payments, shipping and inventory, optimized to sell.

`<h3>` **Website Redesigns** `<p>` Modernize an outdated site without losing the Google rankings you've earned. We map and redirect every URL.

`<h3>` **Landing Pages** `<p>` High-converting pages for ad campaigns, promotions and lead generation, built for testing.

`<h3>` **Website Care, Hosting & Speed Optimization** `<p>` Updates, backups, security monitoring and Core Web Vitals tuning to keep your site fast and safe. [Confirm whether you offer hosting.]

`<h3>` **Logos & Brand Graphics** `<p>` Logos, brand colors and custom graphics so your website and social profiles look consistent and professional.

- Google Analytics 4 with lead and call tracking
- Speed optimization and SSL security
- Contact forms, click-to-call and map integration
- Social media integration, ready for our social media marketing and video services [→ /social-media/, /video-marketing/]
- Full ownership of your website

<h2> **Web Design Across the Emerald Coast**
<p> From our office in Destin we design websites for businesses throughout Northwest Florida: Fort Walton Beach web design, Santa Rosa Beach and 30A web design, Pensacola web design, plus Crestview, Niceville, Miramar Beach, Blue Mountain Beach, Grayton Beach and Panama City Beach.

<h2> **Web Design FAQ**

<h3> **How much does a website cost?** <p> [Most small business sites range from $X to $Y; eCommerce from $Z.] You'll get a fixed quote before we start.

<h3> **How long does it take to build a website?** <p> Most business websites take [4–8] weeks from kickoff to launch, depending on size and how quickly content is approved.

<h3> **Will I be able to update my website myself?** <p> Yes. We build on WordPress or Shopify and show you how to edit pages, posts and products.

<h3> **Will a redesign hurt my Google rankings?** <p> Not when it's done right. We keep or redirect every existing URL and carry your SEO over to the new site.

<h3> **Do I own my website?** <p> Yes, 100%. Your domain, your content and your site are yours. More questions. [→ /faq/]

6. Tracking & Measurement

Priority	Item	Action
P1	Lead events	`cta_click` (web_top / web_bottom), `phone_call_click`, `generate_lead` with service=web_design.
P2	Portfolio clicks	`portfolio_click` with client name on each tile (outbound). Shows which examples persuade people.
P2	Map interaction	The Maps iframe can't be tracked inside. Add a "Get directions" link (`https://www.google.com/maps/dir/?api=1&destination=…`) and fire `directions_click` on it.
P2	GSC monitoring	Track the "destin web design" cluster (9 keywords at #2–4). It's the page's main value; watch for drops after the rewrite and after any 301 from /destin-webdesign-company/.
P3	Pricing engagement	If you add a pricing table, fire `view_pricing` when it scrolls into view.

7. Technical SEO

Priority	Item	Finding / Action
P1	Nested pasted markup	Delete the 14 nested `vc_row/wpb_wrapper` divs in the NAP block (two pasted copies).
P1	Consolidation plan	If /destin-webdesign-company/ is merged: add a 301 → /web-design/, update internal links, remove it from the sitemap, and copy any unique content into this page first.
P2	Map embed	The base64 raw-HTML iframe is fine but hard to edit. Replace it with a plain HTML block or the theme's map element, and add a title attribute. Keep loading="lazy".
P2	Schema	`Service` (serviceType "Web Design", areaServed) + `FAQPage` + `BreadcrumbList`. Portfolio items can use `CreativeWork` (optional).

P2	Portfolio images	WebP, about 800px wide, with explicit width/height and lazy-loading. Don't load full-page screenshots.
P3	Mixed content	http:// images and srcset. Covered by the site-wide search-replace.
P3	Builder junk	3 spacers, 8 paragraphs, the empty row.
