SEO Audit & Changelog: Destin Florida

URL: **https://rockstar-marketing.com/destin-florida/** · WP ID 12182 · Builder: WPBakery + "RockStar Marketing – Proximity" plugin shortcodes · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Created 2023-01-09 · Modified 2024-01-31 · Page 25 of 33 in the site queue

Summary. This is a **local-relevance page generated by your Proximity plugin**. The only hand-written text is the H1 "Destin, Florida", the sentence "All about Destin, Florida", and two links. Everything else comes from six shortcodes: `[rs_weather]`, `[rs_about]`, `[rs_neighborhoods]`, `[rs_location_map]`, `[rs_thingstodo]` and `[rs_competitors_directions]` (location_id 3). Pages like this can support local relevance for "Destin", but only if the output is unique and useful. Three risks: (1) the meta description is copied from **Wikipedia** ("Destin is a city located in Okaloosa County… principal city of the Crestview–Fort Walton Beach–Destin… metropolitan area"), which suggests the `rs_about` block may be Wikipedia text too, i.e. duplicate content; (2) `rs_competitors_directions` may list **competing agencies** and link to them; (3) the page's only ranking is **#42 for "fort walton beach search engine optimization"**, a keyword that belongs on the FWB SEO page (FWS-09). That's probably because the competitor block names FWB SEO companies.

Method note: the live site can't be reached from the audit environment, and the connector only shows the shortcodes, not their rendered output. Several items below are **Verify live** checks on what the plugin prints. Data comes from WordPress (connector), AIOSEO and Semrush US.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Competitor block	*Verify live* what `[rs_competitors_directions]` prints. If it lists other marketing or SEO agencies with links, remove the shortcode, or at minimum make those links `rel="nofollow"` and drop competitor names. Sending visitors and link equity to competitors on your own site works against you. It's also the likely reason this page ranks for FWB SEO terms.
2	P1	Duplicate (Wikipedia) text	The meta description is verbatim Wikipedia. *Verify* whether `[rs_about]` outputs the same Wikipedia text. If so, replace it with the original copy in §5. Copied encyclopedia text adds no value and can be treated as duplicate or scraped content.
3	P1	Purpose & framing	Reframe as **"Doing Business in Destin, Florida: A Local Guide from Rockstar Marketing"**. The goal is local authority and links: the neighborhoods, seasons, events and business climate a Destin business owner cares about, and why that matters for marketing.
4	P1	Meta	SEO title empty → site default. New title and description in §2.
5	P1	Anchors	"Destin, Florida" → /locations (empty page, no trailing slash); "Rockstar Marketing" → Home. Replace with the links in §4.

6	P2	Performance	`[rs_weather]` and `[rs_location_map]` probably call external APIs or embed iframes. *Verify* that they're cached server-side and that the map is lazy-loaded. Weather widgets often load JS on every view, and the data goes stale in the cache (LiteSpeed). Consider dropping the weather widget.
7	P2	Heading output	With hide_heading="NO", each shortcode prints its own heading. *Verify* the levels: they should be H2s under the single H1, not extra H1s or H4/H5s.
8	P2	Duplicate H1	Content H1 + theme title (*verify*).
9	P2	Remove FWB signal	After the competitor block is removed or fixed, check in GSC that "fort walton beach search engine optimization" stops showing this URL and moves to /fort-walton-beach-seo-company/.
10	P3	Other cities	location_id 3 = Destin. If the plugin has other locations (FWB, SRB, Pensacola), apply the same rules before creating sibling "City, Florida" pages.

2. Meta Tags & Search Appearance (AIOSEO)

Field	Current	New

`<h1>` **Doing Business in Destin, Florida**

`<p>` Destin is home base for Rockstar Marketing. Our office is on Harbor Blvd, a few blocks from the harbor. This guide is our take on what makes Destin unique for local businesses, and what that means for how you market yours.

`<h2>` **Destin at a Glance**
`<p>` Destin sits on a narrow strip between the Gulf of Mexico and Choctawhatchee Bay in Okaloosa County, connected to Okaloosa Island and Fort Walton Beach by the Marler Bridge to the west and to Miramar Beach and 30A to the east. Known as the "World's Luckiest Fishing Village", it has one of the largest charter fishing fleets in Florida, plus emerald-green water, white sand and Crab Island, one of the most popular sandbar destinations on the Gulf Coast. A modest year-round population swells with millions of visitors each year, and that shapes everything about doing business here.

`<h2>` **Destin Neighborhoods & Areas** `[rs_neighborhoods, keep if the output is original]`
`<p> (add if needed)` The Harbor, Holiday Isle, Crystal Beach, Destin Commons and the Highway 98 corridor, Kelly Plantation and Regatta Bay, and next door Miramar Beach & Sandestin. Each has a different mix of visitors and residents, and different search behavior.

`<h2>` **Destin's Business Seasons**
`<p>` Spring break and summer bring the biggest crowds; fall brings the fishing rodeo and shoulder-season travelers; winter brings snowbirds and a slower local pace. Smart Destin businesses market year-round: building visibility in the off-season so they're already on top when demand peaks.

`<h2>` **Events That Drive Local Business**
`<p>` The month-long Destin Fishing Rodeo in October, the Destin Seafood Festival, holiday boat parades and summer fireworks over the harbor [check names and dates]. Events are perfect moments for social posts, short-form video marketing and time-limited ads.

`<h2>` **Things to Do in Destin** `[rs_thingstodo, keep if the output is original]`

`<h2>` **Marketing a Destin Business: What Works**

- **Own the map pack.** Visitors search "near me" on their phones. A strong Google Business Profile matters more here than almost anywhere. See our local SEO & Google Business Profile work.
- **Be on Instagram and TikTok.** Trips are planned and shared there. See our Destin social media company.
- **Have a fast, mobile-first website** with click-to-call and booking. See Destin web design.
- **Market to locals too.** They carry you through the off-season.

`<p>` That's exactly how we grew into the Destin SEO company that ranks #1 on Google, and how we help local businesses do the same.

6. Tracking & Measurement

Priority	Item	Action
P1	Outbound audit	GA4 → Engagement → Events → `click` (outbound) filtered by page /destin-florida/. If visitors click through to competitor sites, that confirms #1.
P2	GSC	Check which queries this page gets after the change. It should be "destin florida"-type informational queries, not "seo" terms.
P2	Assist value	Track `cta_click` (destin_guide). This page's value is mostly local relevance and links, so judge it on links earned, not leads.
P3	Link outreach	A genuinely useful Destin business guide can earn links from the Chamber, local blogs and tourism partners. Note any it gets.

7. Technical SEO

Priority	Item	Finding / Action
P1	Plugin output review	View the rendered page source: check heading levels, external links (and rel attributes), any duplicated third-party text, and the scripts each shortcode loads.
P2	Schema	`WebPage` with `about` → `City` "Destin" (sameAs the Wikipedia/Wikidata URL is fine as a reference) + `BreadcrumbList`. Don't add a second LocalBusiness; reference the site-wide entity.
P2	Caching	Weather data and LiteSpeed's full-page cache conflict (stale or wrong weather). Drop the widget, or load it client-side, lazily.
P3	clean-up	Remove the stray paragraph.

8. Changelog
