SEO Audit & Changelog: Video Marketing

URL: **https://rockstar-marketing.com/video-marketing/** · WP ID 11544 · Builder: WPBakery + Quform (form id 3) · SEO plugin: All in One SEO

Summary. The thinnest service page so far: about **200 words, and no video on a video marketing page**. Semrush: "destin video marketing" (70/mo) is won by **Home at #1**, with this page only at #7. There's no Destin video location page, so this page should own the local term **and** go after the national terms where you have real proof: **"video marketing services"** (2,900/mo, KD 31), **"YouTube SEO services"** (1,900, KD 27), "YouTube marketing services" (590, KD 23). Those are low-difficulty commercial keywords. "Destin video production" and "Destin videographer" show 0–20 searches.

Credibility problems: "YouTube's Domain Authority is 100 out of 100" (DA is a Moz metric, not a Google signal), "ranks 100 times faster" (unsourced), "rank YouTube videos in minutes" (sounds like a spam promise to anyone who knows SEO), and the 2014 stat "60 hours uploaded every minute" (now 500+).

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. *Verify live* = check in the browser.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	No video	Embed 2–4 of your best videos (the 60M-reach video, a client promo, a YouTube SEO case). Use a lite YouTube embed (click-to-load) to protect page speed, and add `VideoObject` schema.
2	P1	Thin content	About 200 words. Expand to about 1,100 with what's included, your process, YouTube SEO, proof and an FAQ (§5).
3	P1	H1 / headings	Only the H4 "WE CAN RANK YOUTUBE VIDEOS IN MINUTES". New H1: **"Video Marketing & YouTube SEO Services"**, with a full outline (§3).
4	P1	SEO title	Empty. New: **"Video Marketing & YouTube SEO in Destin, FL | Rockstar Marketing"** (63). It keeps "Destin" because there's no Destin video city page to cannibalize.
5	P1	Risky claims	Remove "Domain Authority 100", "ranks 100 times faster" and "in minutes". Replace with concrete proof: the 60M-reach video, plus [X] videos ranked on page 1 of YouTube/Google for "[keyword]".
6	P1	Intralinking	0 links. Add /social-media/, /seo/, /web-design/, /services/, /clients/, /faq/, city pages and /contact-us/ (§4). Ask Home to link here with the anchor "Destin video marketing" so this page takes over the #1 from Home.

7	P2	Broken markup	The NAP text block contains pasted HTML from a rendered WPBakery row (`<div class="vc_row wpb_row section">…` 7 nested divs) inside a `vc_column_text`. Replace it with a clean paragraph.
8	P2	Form	Quform `[iphorm id="3" name="Video"]`: confirm it still renders, sends notifications and redirects to a thank-you page (needed for conversion tracking). *Verify live.* Keep the form; it's a good above-the-fold conversion point.
9	P2	Outdated stat	"60 hours of video every minute" → "more than 500 hours". The same fix is needed on Home (H-05).
10	P2	Meta description	97 characters and generic. Rewrite (§2).
11	P2	Builder junk	6 raw-HTML spacers, 2 paragraphs, an empty final row. Delete them.
12	P3	Images	Logo strip upscaled with no alt text; cert image has alt="" and its srcset points to http://. Fix both (https, alt text).
13	P3	Backlog	Possible future pages: "YouTube SEO Services" (1,900/mo) as its own page once this one ranks; a video portfolio page.

About 1,100 words. Keep the Quform in the right-hand column at the top, and repeat it at the bottom (or use an anchor link).

`<h1>` **Video Marketing & YouTube SEO Services**

`<p>` Video is the most powerful way to earn attention online, and the hardest to get right. Rockstar Marketing plans, produces, optimizes and promotes video that gets found on YouTube and Google, gets shared on social media, and turns viewers into customers. Our team has produced a single video that reached more than 60 million people.

`<p>` Based in Destin, Florida, we create video marketing for local businesses on the Emerald Coast and for brands, bands and entertainers nationwide.

`<h2>` **Why Video Marketing Works**
`<p>` YouTube is the world's second-largest search engine, with more than 500 hours of video uploaded every minute, and Google regularly shows videos at the top of search results. Short-form video now drives discovery on Instagram, TikTok and Facebook. Businesses that use video get found in more places, build trust faster and give customers a reason to choose them over competitors who only use text and photos.

`<h2>` **Our Video Marketing Services**

`<h3>` **Video Strategy & Scripting** `<p>` We research what your customers search for and watch, then plan videos that answer those questions, with hooks, scripts and calls to action built in.

`<h3>` **Video Production & Editing** `<p>` From promo videos and testimonials to how-to videos and event coverage, we shoot and edit professional video for your business. [Confirm: in-house production / partner crew / client-supplied footage.]

`<h3>` **YouTube SEO & Channel Optimization** `<p>` Titles, descriptions, tags, chapters, thumbnails, captions, playlists and channel setup, everything that helps YouTube and Google understand your video and rank it.

`<h3>` **Short-Form Video: Reels, TikTok & Shorts** `<p>` Vertical clips cut from longer content or made for each platform, posted as part of your social media marketing. [→ /social-media/]

`<h3>` **Video Advertising** `<p>` YouTube, Facebook, Instagram and TikTok video ads targeted by location and interest, with retargeting for people who've already watched.

`<h3>` **Distribution & Promotion** `<p>` We get your video in front of an audience fast: embedding it on your website, sharing it through our network of large fan pages, and promoting it across your channels. [→ /web-design/]

`<h2>` **Video Results**
`EMBED ×2–4` [your best videos, lite-YouTube embeds with title + 1-line caption]

- A single video that reached **60 million+** people
- [X] videos ranked on page 1 of YouTube or Google for "[keyword]"
- Videos for [pro athletes / bands / Destin businesses], with your real examples

`<p>` See more client results. [→ /clients/]

`<h2>` **How YouTube SEO Gets Your Videos Found**
`<p>` A great video nobody finds doesn't help your business. We target a keyword people actually search for, optimize every on-video and on-page signal, add transcripts and chapters, and earn early views and engagement through distribution, which helps a video rank quickly on YouTube and appear in Google's video results. Video also supports your website rankings, which is why we pair it with our SEO services. [→ /seo/]

`<h2>` **Video Marketing for Destin & Emerald Coast Businesses**
`<p>` Restaurants, charters, attractions, vacation rentals, real estate agents, medical practices and contractors across Destin, Fort Walton Beach, Santa Rosa Beach, 30A, Miramar Beach and Pensacola use our videos to stand out. Video works best combined with local social media: see our Destin social media company, Fort Walton Beach, Santa Rosa Beach and Pensacola pages, or all our services. [→ city social pages, /services/]

`<h2>` **Video Marketing FAQ**

`<h3>` **How long should a marketing video be?** `<p>` Social clips work best at 15–60 seconds. YouTube videos that answer a question or explain a service typically run 3–10 minutes. We'll recommend the right length for each goal.

`<h3>` **How quickly can a video rank on YouTube?** `<p>` For low-competition keywords, an optimized and promoted video can reach page one within days. Competitive terms take longer. We'll tell you which keywords are realistic.

`<h3>` **Can you optimize videos I already have?** `<p>` Yes. We audit your channel and existing videos and re-optimize titles, descriptions, thumbnails and captions, often with quick gains.

`<h3>` **What does video marketing cost?** `<p>` [Your pricing: e.g. YouTube SEO from $X/video; production quoted per project.] More questions. [→ /faq/]

Image & video alt / titles

Asset	Alt / title	Action

logos-300×25.jpg	Video platforms we market on	Full-size image, https
cert-300×32.jpg	[certification names]	https src + srcset
Video embeds	`title="[Video title] — Rockstar Marketing"` on the iframe	Lite embed + VideoObject

6. Tracking & Measurement

Priority	Item	Action
P1	Form conversion	Quform id 3: redirect to /thank-you/?form=video, or fire `generate_lead` (service=video) through the Quform success JS hook. Mark it as a Key Event.
P1	Video engagement	GA4 Enhanced Measurement "Video engagement" tracks YouTube embeds (video_start / progress / complete) only if the embed has `enablejsapi=1`. Turn that on, or use the GTM YouTube trigger, since lite embeds need it.
P2	CTA + phone	`cta_click` (video_top / video_bottom), `phone_call_click`.
P2	YouTube → site	Use UTM links in your YouTube descriptions and end screens (`utm_source=youtube&utm_medium=video&utm_campaign=[video-slug]`), and link the YouTube channel to GA4/Google Ads.
P3	Meta Pixel	ViewContent "Video Marketing" + Lead, for retargeting.

7. Technical SEO

Priority	Item	Finding / Action
P1	Nested pasted markup	Remove the 7 nested `<div class="vc_row…">` wrappers inside the NAP text block. That's rendered builder output pasted back in, and it creates invalid, duplicate row structure.
P1	VideoObject schema	For each embed: name, description, thumbnailUrl, uploadDate, duration, embedUrl, contentUrl. Lets the page show video rich results in Google.
P2	Embed performance	Standard YouTube iframes add about 500KB+ of JS each. Use a lite-youtube facade (thumbnail + click to load) or LiteSpeed's iframe lazy-load.
P2	Video sitemap	AIOSEO Pro has a Video Sitemap. If you're on Pro, turn it on so Google discovers the embedded videos.
P2	Schema	`Service` (serviceType "Video Marketing") + `FAQPage` + `BreadcrumbList`.
P3	Builder junk	Delete 6 raw-HTML spacers, the paragraphs and the empty row.
