SEO Audit & Changelog: Blog Post "Definitive Guide to Building and Optimizing Your Amazon Store"

URL: **https://rockstar-marketing.com/definitive-guide-to-building-and-optimizing-your-amazon-store/** · Post ID 12246 · Block editor (with pasted HTML) · Category: Uncategorized
Audit date: 2026-10-25 · Published 2024-01-31 · Item 30 of 34 in the site queue

Summary. This is the most substantial post on the blog: about 1,200 words that follow Amazon's real seller journey, and it already has 4 internal links. Three things to decide or fix:
1. Business fit. Amazon isn't listed as a service anywhere on the site. If you **do** offer Amazon store/listing help, add it to /services/ and make this post its lead magnet. If not, keep the post as eCommerce authority content and point its CTA at Shopify/eCommerce web design and paid social.
2. Keyword. Semrush US: **"amazon store optimization" = 210/mo at KD 9**, an unusually easy, relevant term that matches this post exactly. The broad terms are much harder ("amazon storefront" 27,100/KD 56; "how to create an amazon storefront" 3,600/KD 53; "amazon listing optimization" 2,400/KD 40; "amazon seo" 4,400/KD 43). Target the easy one; use the others as secondary phrases.
3. Structure and accuracy. The content is crammed into paragraphs separated by
 line breaks instead of H3s and lists; there are about 14 broken `</p><p>` fragments inside paragraph blocks; "Better Brand Content (BBC)" was renamed **A+ Content** years ago; there's a garbled line ("You can buy brands on Amazon." should be **Sponsored Brands**) and a typo-heading ("Look over management" should be review management); the image is the Amazon logo with no alt text; and there's no meta.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. Check Amazon program names in Seller Central before publishing.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Service decision	Decide whether you sell Amazon services. **Yes** → add an "Amazon Store & Listing Optimization" H3 to /services/ and a CTA here. **No** → CTA to eCommerce web design (/web-design/) and paid social, with a note that you help brands sell on their *own* store too.
2	P1	Keyword	Focus **"Amazon store optimization"** (210, KD 9). Title: "Amazon Store Optimization: The Complete Guide to Building and Growing Your Amazon Store".
3	P1	Broken markup	About 14 stray `</p>\r\n<p>` fragments inside `wp:paragraph` blocks, walls instead of lists, and inside every H2. Rebuild with proper Heading, List and Paragraph blocks.

4	P1	Sub-headings	Each step's sub-topics (Keyword research, Titles, Bullet points…) are bold inline text. Turn them into H3s (§3).
5	P1	Meta	No SEO title, description or keyphrase (§2).
6	P2	Outdated / wrong terms	"Better Brand Content (BBC)" → **A+ Content** (and Premium A+); "You can buy brands on Amazon." → **Sponsored Brands** ads; "Ads with banners" → **Sponsored Display**; "Look over management" → **Review management**; "Trade with other countries" → Amazon Global Selling. Note that an Amazon **Store** requires Brand Registry.
7	P2	Image	`Amazon_icon.svg_-300x300.png` (Amazon's logo, alt=""). Using a third-party logo as your hero image is weak (and a trademark-use grey area). Replace it with an original image (e.g. a storefront mock-up or listing screenshot), alt "Example of an optimized Amazon brand store", and set it as the featured image.
8	P2	Anchors	"marketing" → Home and "landing pages" → /web-design/ are weak anchors. Change them to "eCommerce web design" → /web-design/ and "Destin digital marketing agency" → / (or drop the Home link). Keep "videos" → /video-marketing/ and "SEO" → /seo/. Make the amazon.com link rel="nofollow" or remove it (it's unneeded).
9	P2	No intro H2 / TOC / FAQ	Add a short "What is Amazon store optimization?" answer box at the top (for AI and featured snippets), a TOC, and a 3-question FAQ.
10	P2	Category / author	Uncategorized → eCommerce & AI (LT-05); named author.
11	P3	Policy accuracy	Review requests: mention Amazon's "Request a Review" button and that incentivized reviews are prohibited.

2. Meta Tags & Search Appearance (AIOSEO)

Field	Current	New
Post title / H1	Definitive Guide to Building and Optimizing Your Amazon Store	**Amazon Store Optimization: The Complete Guide to Building and Growing Your Amazon Store**
SEO title	(empty)	**Amazon Store Optimization: Complete 7-Step Guide (2026)** (55)
Meta description	(empty)	**How to build and optimize an Amazon store: Brand Registry, listing SEO, A+ Content, Sponsored ads, reviews, analytics and scaling, step by step.** (146)
Focus keyphrase	(empty)	Amazon store optimization
Additional	none	Amazon listing optimization · Amazon SEO · how to create an Amazon storefront · Amazon brand store

Slug	/definitive-guide-to-building-and-optimizing-your-amazon-store/	Keep it (contains "optimizing-your-amazon-store"; no 301 needed)

3. Heading Structure

Current	New
H1 (theme) – Definitive Guide... H2 – Step 1: Setting up your Amazon store for the first time H2 – Step 2: Make the product listings better H2 – Step 3: Branding and optimizing the storefront H2 – [br] Step 4: Use the marketing services offered by Amazon H2 – Step 5: Make sure customers are happy and get reviews H2 – Step 6: Data analysis and always making things better H2 – Step 7: Making your Amazon store bigger *Sub-topics = bold text with *	**H1** – Amazon Store Optimization: The Complete Guide... *Answer box: "What is Amazon store optimization?" + TOC* **H2** – Step 1: Set Up Your Seller Account and Brand Registry **H3** Professional vs. Individual Plan · **H3** Brand Registry · **H3** Create Your Amazon Store **H2** – Step 2: Optimize Your Product Listings (Amazon SEO) **H3** Keyword Research · **H3** Titles · **H3** Bullet Points · **H3** Descriptions & A+ Content · **H3** Images & Video **H2** – Step 3: Design and Brand Your Storefront **H3** Design · **H3** Navigation & Categories · **H3** Mobile · **H3** Deals & Coupons **H2** – Step 4: Advertise With Amazon Ads **H3** Sponsored Products · **H3** Sponsored Brands · **H3** Sponsored Display & DSP · **H3** Driving External Traffic **H2** – Step 5: Deliver Great Service and Earn Reviews **H3** Fulfillment (FBA) · **H3** Customer Service · **H3** Review Requests & Management **H2** – Step 6: Analyze and Improve **H2** – Step 7: Scale Your Amazon Store **H2** – FAQ *(3 Qs)* **H2** – Need Help Selling Online? *(CTA)*

4. Internal Linking Plan

Anchor text	Target	Where
product videos *(keep)*	/video-marketing/	Step 2 Images & Video
SEO *(keep)*	/seo/	Step 6
eCommerce web design / landing pages	/web-design/	Step 4 External traffic (replaces "landing pages" + "marketing")
Instagram marketing for small business	Instagram post	Step 4 External traffic
social media ads	/social-media/	Step 4
[Amazon services, if offered]	/services/#amazon	CTA
Get a free consultation	/contact-us/?service=ecommerce	CTA
Remove / nofollow	"marketing" → Home; amazon.com	n/a

5. Content Changes (ready to paste)

Keep the existing step text, restructured under the H3s in §3. New and corrected passages below.

`NEW answer box after intro` **What is Amazon store optimization?** Amazon store optimization is improving everything shoppers and Amazon's search algorithm see: your product listings (titles, bullets, images, A+ Content), your branded Amazon Store, your advertising and your reviews, so your products rank higher and convert more visitors into buyers.

`Step 1 → <h3> Create Your Amazon Store` Once you're enrolled in Amazon Brand Registry, you can build a free, multi-page Amazon Store (your brand's storefront on Amazon, with its own URL) using Amazon's drag-and-drop templates.

`Step 2 → <h3> Descriptions & A+ Content` Brand-registered sellers can replace the plain description with **A+ Content** (formerly "Enhanced Brand Content"): comparison charts, lifestyle images and brand story modules that typically lift conversion. Add short product videos to your listing and Store.

`Step 4 → <h3> Sponsored Brands` Sponsored Brands ads show your logo, a custom headline and several products (or a video) at the top of search results, and can send shoppers to your Amazon Store.

`Step 4 → <h3> Sponsored Display & DSP` Sponsored Display retargets shoppers who viewed your products, on and off Amazon. Amazon DSP adds programmatic display and video for larger budgets.

`Step 4 → NEW <h3> Driving External Traffic` Send traffic from social media ads, Instagram and your own site's landing pages to your Amazon listings. Brand Registry sellers can use Amazon Attribution to measure it, and may earn a Brand Referral Bonus.

`Step 5 → <h3> Review Requests & Management` Use the "Request a Review" button in Seller Central (or Amazon-compliant automation) to ask every buyer for a review. Never offer incentives for reviews; Amazon prohibits it. Respond publicly and professionally to negative feedback where you can.

`NEW <h2> FAQ`
Do I need Brand Registry to have an Amazon Store? Yes. Amazon Stores are available to brand owners enrolled in Brand Registry, which typically requires an active or pending trademark.
How long does Amazon listing optimization take to work? Listing changes can affect conversion within days. Organic rank usually improves over several weeks as sales velocity builds.
Should I sell on Amazon or my own website? Ideally both: Amazon for reach, your own store for margin and customer data. [We build fast Shopify and eCommerce websites.]

`CTA <h2>` **Need Help Selling Online?** [If Amazon services: "Rockstar Marketing optimizes Amazon listings, Stores and ads."] / [Otherwise: "Rockstar Marketing builds eCommerce websites and runs

the social media and video that drive shoppers to your products."] `button` [Get a Free Consultation] → /contact-us/?service=ecommerce

6. Tracking & Measurement

Priority	Item	Action
P1	GSC	Check current impressions for "amazon store optimization" and related queries. This post is the most likely on the blog to earn search traffic quickly (KD 9).
P2	Blog → lead	`cta_click` (post_amazon), content_group "blog". If the post brings eCommerce leads, that's evidence for adding an Amazon/eCommerce service page.
P3	Outbound	Enhanced Measurement already logs the amazon.com click. If you keep the link, monitor it.

7. Technical SEO

Priority	Item	Finding / Action
P1	Block markup	Remove the ~14 stray fragments and empty paragraphs; replace lists with List blocks; remove and the leading from the H2s.
P2	Schema	`BlogPosting` (author Person, dates, image) + `BreadcrumbList`; the FAQ belongs only in the visible content (FAQPage schema stays on /faq/ only, per FAQ-09).
P2	Featured image	Original image, WebP, alt text; replaces the Amazon logo.
P3	TOC	Add a table of contents for the 7 steps.

8. Changelog

Date	ID	Type	Change	Status
2026-10-25	AMZ-01	Decision	Do you offer Amazon services? Determines the CTA and a possible /services/ addition	Proposed
2026-10-25	AMZ-02	Change	Focus "Amazon store optimization" (210, KD 9); new title, SEO title, description, keyphrases	Proposed
2026-10-25	AMZ-03	Restructure	Bold inline sub-topics → ~25 H3s; walls → lists; fix broken block markup	Proposed
2026-10-25	AMZ-04	Fix	BBC → A+ Content; Sponsored Brands/Display; review-management typo; Brand Registry requirement; review-incentive policy	Proposed

2026-10-25	AMZ-05	Add	Answer box, "Driving External Traffic" H3, 3-Q FAQ, CTA, TOC	Proposed
2026-10-25	AMZ-06	Fix	Anchors ("marketing", "landing pages") improved; amazon.com nofollow/remove; +3 links (social, Instagram post, contact)	Proposed
2026-10-25	AMZ-07	Replace	Amazon logo → original featured image with alt	Proposed
2026-10-25	AMZ-08	Change	Category → eCommerce & AI; named author; BlogPosting schema	Proposed
2026-10-25	AMZ-09	Tracking	GSC query check; blog CTA event	Proposed
