SEO Changelog — Homepage

URL: https://bikkinibottomboat.com/ · **WP ID:** 556 (Elementor, Astra theme, Rank Math Pro) · **Audit date:** 2026-10-25 · **Audit page 1 of 24**
Sources: WordPress/Elementor content and Rank Math fields (site connector), footer template (ID 330), FAQ page facts (ID 2271), Semrush US database (rankings + keyword volumes).

> **Limitation:** the live site could not be fetched from the audit environment (network block), so the rendered HTML (canonical, robots meta, schema output, tracking scripts, Core Web Vitals) was not inspected directly. Items that depend on the rendered page are marked **VERIFY**.

1. Summary

Area	Current state	Priority
Keyword targeting	Rank Math focus keyword field holds 6 phrases including a different brand ("beach please charters"). Homepage ranks #12 for "crab island tours" (1,600/mo) and #1 only for brand terms.	**High**
SEO title & meta	Title renders as "Crab Island Tour – Bikkini Bottom Boat Charters" (singular, low-volume variant). Meta description promotes "Beach Please Charters", not Bikkini Bottom.	**High**
H1 / headings	H1 "Welcome to Bikkini Bottom Boat Charters" has no service or location keyword. "Why Choose Us" uses H6 for numbers ("01.") and H4 for items; no H3 layer.	**High**
Content depth	About 380 visible words. Facts that set the business apart (49-passenger boat, free parking, BYOB, floats provided, Harbor Blvd departure) appear only on the FAQ page.	**High**
Internal linking	Every tour card links only to FareHarbor. There are no contextual links to the Crab Island, Sunset/Dolphin/Fireworks, Dolphin, FAQ, Gallery or Contact pages. Footer links point at slugs that don't match the real pages.	**High**
Booking links	Hard-coded to old calendar months (2025/02, 2025/03). One link carries an `?elementor-preview=556` back-URL.	**High**
Images	3 of 5 content images have empty alt text. Originals of 2048–2560 px are served with `sizes="100vw"`. Filenames carry no meaning.	**Medium**
Schema	No LocalBusiness/TouristTrip markup set up through Rank Math for the homepage (VERIFY rendered output).	**Medium**
Tracking	No evidence of GA4/GTM event tracking for Book Now, phone or FareHarbor purchases (VERIFY in WPCode / page source).	**High**

2. Keyword targeting (Semrush US, Oct 2026)

Keyword	Volume	KD	Current rank / URL	Assign to
crab island destin	12,100	26	— (what-is-crab-island ranks #7 for "crab island location")	What is Crab Island page; homepage supports it
crab island tours	1,600	26	#12 homepage	Crab Island Tours page (primary) + homepage (secondary)
crab island excursions destin fl	1,300	—	#4 /crab-island-tours-in-destin-fl/	Crab Island Tours page
destin sunset cruise / sunset cruise destin fl	880 / 720	45 / 51	not in top 40	Sunset & Dolphin page; homepage section
destin boat tours / boat tours destin fl	480 / 170	62 / 53	not in top 40	**Homepage primary**
dolphin tours destin fl	480	33	not in top 40	Dolphin Tours page
crab island charter	480	—	#4 homepage	Homepage (private charter section)
crab island shuttle	210	19	—	Public vs private page; homepage mention
bikini bottom boat (misspelled brand)	50–140	—	#1 homepage	Homepage; add as schema `alternateName`

> **Decision:** the homepage targets the umbrella term **"Destin boat tours"** plus **"Crab Island tours"** as secondary. The Crab Island Tours page (ID 599) owns "crab island tours" as its primary term. The homepage passes authority to it with exact-match anchor text, so the two pages stop competing for the same keyword.

3. Rank Math / meta changes

Field	Current	Change to
SEO title	Crab Island Tour %sep% %sitename%	**Destin Boat Tours & Crab Island Tours | Bikkini Bottom** (55 chars)
Meta description	Experience the best of Destin, FL with Beach Please Charters. Join our Crab Island tour, sunset and dolphin tour, and Destin fireworks cruise today!	**Crab Island tours, sunset & dolphin cruises and fireworks cruises in Destin, FL aboard Bikkini Bottom. 49-passenger boat, BYOB, free parking. Book online!** (153 chars)
Focus keyword	Crab Island Tour, bikkini bottom, beach please charters, crab island, Sunset cruise, destin fireworks cruise	**destin boat tours** (primary); secondary: crab island tours, destin sunset cruise, bikkini bottom boat charters. Remove "beach please charters".

WP page title (internal)	Crab Island Tour | Dolphin Tour | Fireworks Cruise | Bikkini Bottom Boat Charter	**Home**. Rank Math uses this in breadcrumbs and WebPage schema, so a keyword-stuffed title adds noise.
Slug	crab-island-tours-in-destin-fl-2-2-2-2-2	No visible effect (front page serves at "/"), but rename to **home** to avoid confusion with service pages.
Open Graph / Twitter	Not set (falls back to defaults)	OG title = SEO title; OG description = "Crab Island, sunset, dolphin & fireworks cruises in Destin, FL. Book your spot aboard Bikkini Bottom."; OG image = 1200×630 crop of a boat photo at Crab Island (upload new).
Site tagline	"Where Unforgettable Adventures Begin! Explore Crab Island..." (230+ chars)	Shorten to: **Crab Island & Destin Boat Tours**. Some themes and schema outputs use the tagline.

Footer H3/H4	Directions to Your Crab Island Adventure / About Us / Activities / Get In Touch	Footer shows on every page, so change these to **styled paragraphs (not headings)**. This stops the same 4 headings repeating on every URL.

5. Full rewritten page copy (paste into Elementor)

Facts are taken from the site's FAQ and footer. Text in [brackets] needs the owner's input. Do not publish the FAQ claim "part of Destin since 1978" until the owner confirms it.

6b. Fix existing links

Location	Current href	Fix
Footer → Crab Island Tour, Private Large Group Tour	/crab-island-tours/	Point at /crab-island-tours-in-destin-fl/ (or the new clean slug, see §7). VERIFY whether a Rank Math redirect exists; a redirect hop on a site-wide link still wastes crawl budget.
Footer → Sunset and Dolphin Tour, Destin Fireworks Cruise	/sunset-and-dolphin-tour-fireworks-cruise/	Point at the real page URL. Send Fireworks to `#fireworks` on that page.
Footer → Contact Us	/contact-bikkini-bottom/	/contact-bikkini-bottom-boat-charters/
Footer → Activities	No Dolphin Tours link	Add "Daytime Dolphin Tour" → ID 1457 page

Footer → About Us	No Gallery or Blog	Add "Photo Gallery" → /our-charter/ and "Local Guide (Blog)" → /blog/
Footer partner logos (5)	No alt text; one link is `http://Luxxnailspafwb.com`	Add alt = partner name, use https, add `rel="noopener"`. Consider linking the partner logos to the matching spotlight posts on this site instead.
Blog link list on homepage	Inline `style="color:#0000ff"`, no heading	Remove inline styles. Put the links under the "Plan Your Crab Island Trip" H2 as a styled list or Elementor Icon List.
"View All Testimonial" button	goo.gl short link	Rename to "Read All Google Reviews". Use the full Google Maps place URL (goo.gl links are deprecated), opened in a new tab.

6c. Links other pages should send to the homepage

Each blog post and Crab Island guide page should link once to the homepage with the anchor "**Destin boat tours**" or "**Bikkini Bottom Boat Charters**". Set this up in Internal Link Juicer (already installed): add "destin boat tours" and "destin boat charters" as keywords on page 556.

7. Technical fixes

Issue	Fix	Priority
Stale FareHarbor booking URLs	Replace with evergreen links that open the FareHarbor Lightframe: Crab Island: `https://fareharbor.com/embeds/book/bikkinibottomboat/items/615407/?full-items=yes` Sunset/Dolphin: `…/items/550732/?full-items=yes` Fireworks: `…/items/550737/?full-items=yes` Private: `…/items/550728/?full-items=yes&flow=1191550` Remove `/calendar/2025/0X/` and the `back=…elementor-preview…` parameter.	**High**
Service page slugs (site-wide)	Rename and 301 in Rank Math → Redirections: /crab-island-tours-in-destin-fl-2/ → **/destin-sunset-cruise-fireworks/** /crab-island-tours-in-destin-fl-2-2-2-2/ → **/dolphin-tours-destin-fl/** /our-charter/ → **/gallery/** Then update the menu, footer and every internal link to the new URLs. These get full write-ups on their own changelogs.	**Medium**
Images: missing alt	Hero/Crab Island image (439986986_...jpg): **"Guests floating at Crab Island beside the Bikkini Bottom boat in Destin FL"** Private charter image (IMG_2762...): **"Private group charter aboard Bikkini Bottom on Destin Harbor"** Tiki image (812EE4F3...): **"Crab Island Tiki Tours tiki boat in Destin"** Footer logo: replace "default-logo" with **"Bikkini Bottom Boat Charters logo"**.	**Medium**

Images: weight	The 2560×1920 and 2048×2048 originals load into cards about 400 px wide. In Elementor, set Image Size = "Medium Large (768)" for each card. In Imagify, turn on WebP/AVIF conversion and delivery via <picture>. Mark the first image `fetchpriority="high"` and leave it out of LiteSpeed lazy-load. The Private Charter card uses a 300×225 file, so switch it to 768w to avoid blur on retina screens.	**Medium**
Image filenames	Rename new uploads before upload, e.g. `crab-island-tour-destin-bikkini-bottom.jpg`. Don't rename existing files in place (it breaks URLs) unless you also add redirects.	**Low**
Review iframe	The reviews iframe (bikkinibottomboatreviews.com) sits beside a `[trustindex]` shortcode, so two review systems are stacked. Keep one. Prefer the Widgets for Google Reviews plugin, which renders review text in the HTML. Delete the iframe: Google doesn't count iframe content toward this page, and it adds third-party load.	**Medium**
Google Map iframe (footer, every page)	Already `loading="lazy"`. Consider a static map image linking to Google Maps to cut about 500 KB of JS on mobile.	**Low**
Canonical / robots / sitemap	VERIFY: the homepage canonical is `https://bikkinibottomboat.com/`, and http and www both 301 to it. Rank Math sitemap excludes `elementor_library` and `elementor-hf`. The test page "Elementor #2321" is noindex or deleted.	**Medium**
Core Web Vitals	VERIFY in PageSpeed Insights (mobile). Expected issues: LCP from the large hero, CLS from the review iframe (min-height 250px, no fixed height), INP from the FareHarbor and map scripts. LiteSpeed: turn on CSS/JS combine with Elementor-safe settings, and delay JS for FareHarbor until interaction.	**Medium**

Also add FAQPage schema for the 5 homepage FAQs (Rank Math FAQ block, or include it in the custom schema). Google now shows FAQ rich results only for authoritative gov/health sites, but AI Overviews and answer engines still read the markup. Do **not** add aggregateRating to your own LocalBusiness markup; Google ignores self-served review stars. Make sure the address string exactly matches the Google Business Profile, including or leaving out "Suite 16" the same way. The map embed includes "Suite #16" but the footer text doesn't.

8. Tracking & measurement

Item	Setup	Priority
Base tags	VERIFY in WPCode / page source whether GA4 and/or GTM are installed. If not, install **Google Tag Manager** through WPCode (header + body snippets) and load GA4, Google Ads and Meta Pixel from GTM. Don't hard-code duplicate tags.	**High**
Booking conversions	In FareHarbor Dashboard → Settings → Integrations, add the GA4 Measurement ID and/or GTM container. FareHarbor then sends `purchase` with value from the Lightframe. In GA4, mark `purchase` as a key event. Turn on cross-domain measurement for `fareharbor.com` (GA4 Admin → Data streams → Configure tag settings → Configure your domains).	**High**

Book Now clicks	GTM Click trigger: Click URL contains `fareharbor.com/embeds/book/bikkinibottomboat` → GA4 event `begin_checkout`, parameters `tour_name` (from the item ID: 615407 = Crab Island, 550732 = Sunset/Dolphin, 550737 = Fireworks, 550728 = Private) and `link_location` (hero / card / footer).	**High**
Tiki Tours referral	Click URL contains `crabislandguideservice` → event `sister_brand_click`.	**Low**
Phone, email, directions	`tel:` → `phone_click` (key event); `mailto:` → `email_click`; Google Maps links → `directions_click`.	**High**
Engagement	Scroll depth 50/90%, FAQ toggle clicks, and outbound clicks to partner logos.	**Low**
Google Business Profile	Set the GBP website link to `https://bikkinibottomboat.com/?utm_source=google&utm_medium=organic&utm_campaign=gbp` so map-pack traffic shows up separately in GA4.	**Medium**
Search Console & Bing	VERIFY both properties exist (domain property in GSC). Submit `/sitemap_index.xml`. Link GSC to GA4 and to Rank Math (Analytics module) for keyword tracking of "destin boat tours" and "crab island tours".	**Medium**
Consent	If you run Meta or Google Ads remarketing, add a lightweight consent banner with Consent Mode v2 defaults set in GTM.	**Low**
