SEO Audit & Changelog: Fort Walton Beach Web Design

URL: **https://rockstar-marketing.com/fort-walton-beach-web-design/** · WP ID 12120 · Builder: Classic editor · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Created / modified: 2023-01-07 · Page 17 of 33 in the site queue

Summary. Semrush: **"fort walton beach web design" = 90/mo** and **"fort walton beach webdesign" = 70/mo**. Both are ranked by `/web-design/` (#17 and #15), **not by this page**, which doesn't appear in the top 100. The dedicated FWB page should take those over, which is the same pattern as FWB SEO. Content problems: about 430 words, **one paragraph pasted twice word for word** ("We understand the importance of making sure that each project reflects your company's style..."), the same stock image as /destin-webdesign-company/ (now being retired), and the image **links to a goo.gl Maps URL**. There are three keyword anchors (→ /locations, → goo.gl ×2), grammar errors ("a always-ready", "an stunning", "whilst"), and inconsistent experience claims ("over 27 years" here, 26 on the Destin page).

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. *Verify live* = check in the browser.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Duplicate paragraph	The same 2-sentence paragraph appears twice. Delete the copy as part of the full rewrite (§5).
2	P1	Wrong page ranking	/web-design/ ranks #15–17 for FWB web design terms. Give this page unique FWB content and link to it from /web-design/ ("Fort Walton Beach web design", already in the WD rewrite), /locations/ and the FWB SEO and social pages. Don't mention FWB in /web-design/'s title or H1.
3	P1	Keyword anchors	"Our Fort Walton Beach Web Design Company's" → /locations; "Fort Walton Beach Web Design Company" → goo.gl; the image → goo.gl. Remove all three and use the links in §4.
4	P1	Focus keyphrase	Empty. Set to **"Fort Walton Beach Web Design"** (90/mo), secondary "Fort Walton Beach website design", "web designer Fort Walton Beach".
5	P1	Duplicate H1	Content H1 plus theme title (*verify*). New single H1: **"Fort Walton Beach Web Design"**.
6	P2	H2 present	"Fort Walton Beach Web Design and Wordpress Development" is the only H2. Keep the idea, fix the casing ("WordPress"), and add a full outline (§3).
7	P2	Experience claim	"over 27 years" → "since 1996" (site-wide rule WD-14).

8	P2	Image	`final-slide-11-300x192.jpg` upscaled to 358px, alt = keyword, linked to goo.gl. Use an FWB client website screenshot (portfolio), unlinked or linked to the live client site, with a descriptive alt.
9	P2	No portfolio / CTA / price	Add 2–3 FWB (or nearby) site examples, a CTA and a price range (consistent with /web-design/).
10	P2	Map + goo.gl	Fixed 1000px iframe; 3 goo.gl links. Same fix as the other city pages.
11	P3	Meta description	Truncated mid-sentence ("creating a winning combination"). Rewrite (§2).

6. Tracking & Measurement

Priority	Item	Action
P1	Ranking URL switch	GSC: "fort walton beach web design" / "webdesign". Today /web-design/ gets them (#15–17); the target is this URL in the top 5.
P1	Leads	CTA links with city/service params → Quform hidden fields → `generate_lead`.
P2	Events	`cta_click` (fwb_web_top / bottom), `phone_call_click`, `portfolio_click`, `directions_click`.

7. Technical SEO

Priority	Item	Finding / Action
P1	Single H1	Content H1 or theme title.
P2	Image link	Remove the <a> wrapping the image (it points to goo.gl Maps, which surprises users and wastes link equity).
P2	Schema	`Service` (Web Design, areaServed Fort Walton Beach) + `BreadcrumbList`.
P2	Map + goo.gl	Responsive lazy iframe; replace 3 goo.gl links.
P3	Image reuse	final-slide-11 is also on /destin-webdesign-company/ (being retired). Use a different project image here.
