# SEO Audit & Changelog: Latest (Blog Index)

URL: **https://rockstar-marketing.com/latest/** · WP ID 12215 · Builder: Classic editor · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Created 2023-03-24 (never edited) · Page 26 of 33 in the site queue

**Summary.** "Latest" is meant to be the blog page, but it's **an empty published page**: 0 words, no meta. WordPress isn't using it as the posts page either. In *Settings → Reading*, "Posts page" is unset (`page_for_posts = 0`), so **/latest/ doesn't list any posts** unless the theme template does it (*verify live*). As a result, the site's 6 blog posts have no crawlable index page linking to them. Those 6 posts also have **no SEO title, no meta description and no focus keyphrase**, and one has the slug `/12280-2/`. Each post is audited separately (pages 28–33). This page needs to become a real blog hub.

**Method note:** the live site can't be reached from the audit environment. Data comes from WordPress (connector) and AIOSEO. *Verify live* = check in the browser.

## 1. Priority Fix List

| # | Priority | Area | Issue → Fix |
|---|---|---|---|
| 1 | P1 | Not the posts page | WP Admin → Settings → Reading → "Your homepage displays: A static page" → Homepage: Home · **Posts page: Latest**. WordPress will then render /latest/ as the blog archive (paginated list of posts) using the theme's blog template. |
| 2 | P1 | Name / URL | "Latest" is vague for users and search. Rename the page title to **"Marketing Blog"** (menu label "Blog"). Keep the slug /latest/ (simplest), or change it to /blog/ with a 301 from /latest/. /blog/ is clearer and what users expect; recommended only if /latest/ has no backlinks (check Semrush Backlinks). |
| 3 | P1 | Meta | Empty. Set the SEO title and description (§2). AIOSEO → Search Appearance → Archives/Blog page controls these once it's the posts page. |
| 4 | P1 | Menu & footer | Add "Blog" to the main menu and footer (*verify live*). Without it, the posts are only reachable through the sitemap. |
| 5 | P2 | Intro text | WordPress ignores the posts page's own content. Add an intro via the theme's blog options or AIOSEO's archive description: 2–3 sentences plus links to the service pages (§5). |
| 6 | P2 | Categories | The 6 posts cover YouTube, Instagram, Amazon, AI marketing and SEO. Create 4 categories (SEO, Social Media, Video & YouTube, eCommerce & AI), assign them, and make sure "Uncategorized" isn't used. |
| 7 | P2 | Blog → services | Each post should link to its matching service page, and service pages should link to related posts ("Read: How to Start a YouTube Channel" on /video-marketing/, etc.). Details in the post audits. |
| 8 | P2 | Pagination & archives | With 6 posts, one page is enough. Make sure author, date and tag archives are noindex (AIOSEO) to avoid thin duplicates. Keep category archives indexable only once they have 3+ posts. |

| | | | |
|---|---|---|---|
| 9 | P3 | Content cadence | Latest post date: *check*. Aim for 2 posts/month that support the money pages: Pensacola SEO, Pensacola web design, the FWB and SRB city topics, and AI search. |

## 2. Meta Tags & Search Appearance (AIOSEO)

| Field | Current | New |
|---|---|---|
| Page title | Latest | Marketing Blog |
| SEO title | (empty) | **Digital Marketing Blog: SEO, Social & Video Tips \| Rockstar Marketing** (67) / short: "Marketing Blog \| Rockstar Marketing" |
| Meta description | (empty) | **Practical SEO, social media, YouTube, AI search and web design tips for small businesses, from the Destin team behind 30 years of results.** (139) |
| H1 | "Latest" (theme title) | Marketing Blog |
| Slug | /latest/ | Keep it, or /blog/ + 301 (see #2) |
| Robots | index (empty!) | index once it lists posts. Until Settings → Reading is fixed, set it to noindex. |

## 3. Heading Structure

| Current | New |
|---|---|
| *Empty page; theme title only* | **H1** – Marketing Blog<br>*Intro paragraph*<br>**H2** per post card = post title (theme default, usually H2; *verify*)<br>*Category filter links* (SEO · Social Media · Video & YouTube · eCommerce & AI)<br>**H2** – Need Help With Your Marketing? *(CTA, via the widget or theme blog footer)* |

| 12308 | Best Destin SEO Company: How to Choose the Right Partner... | /best-destin-seo-company-how-to-choose.../ | none | Possible cannibalization of Home's #1 |

## 6. Tracking & Measurement

| Priority | Item | Action |
|---|---|---|
| P2 | Content group | GA4: set a `content_group` = "blog" for /latest/ and all posts (GTM data layer or Site Kit). Report blog → service-page → lead paths. |
| P2 | Post clicks | `select_content` (content_type=post, item_id=slug) on post cards. |

| | | |
|---|---|---|
| P3 | GSC | After the change, URL Inspection on /latest/ and on each post, and request indexing. |

## 7. Technical SEO

| Priority | Item | Finding / Action |
|---|---|---|
| P1 | Settings → Reading | Posts page = Latest (page_for_posts currently 0). |
| P1 | Empty indexable page | noindex until it lists posts. |
| P2 | Schema | AIOSEO outputs `CollectionPage` / `Blog` for the posts page; posts get `BlogPosting` with author = founder Person (AB-09). |
| P2 | Archive noindex | noindex author/date/tag archives; index categories with 3+ posts. |
| P3 | RSS | Make sure /feed/ works once the posts page is set (used by aggregators and some AI crawlers). |
