SEO Audit & Changelog: Destin Web Design Company

URL: **https://rockstar-marketing.com/destin-webdesign-company/** · WP ID 12001 · Builder: Classic editor · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Created 2023-01-02 · Last modified 2023-01-03 · Page 14 of 33 in the site queue

> **Summary & decision: CONSOLIDATE (301 → /web-design/).**
> **Semrush has no rankings for this URL in the top 100.** Meanwhile `/web-design/` ranks **#2–4 for nine "Destin web design" keywords** (e.g. "destin web design" #4 at 170/mo, "destin website design" #2, "website design destin" #3). The two pages target exactly the same intent. This one is about 300 words of generic copy, the slug is misspelled ("*webdesign*"), and it sends the anchor "Destin Web Design Company" to the empty /locations/ page. Keeping both splits signals. Merging this page's one unique idea (the "you own your website, domain and hosting" promise) into /web-design/ and redirecting this URL makes the ranking page stronger at no cost.
>
> This is unlike /destin-social-media-company/ (kept, because no Destin-specific social page competes) and /destin-seo-company/ (kept, re-focused to local SEO/GBP, a distinct sub-intent). For web design there's no meaningful Destin sub-intent left: /web-design/ *is* the Destin web design page.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US (no ranking data for this URL). *Verify live* = check in the browser.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Duplicate intent	301 redirect `/destin-webdesign-company/` → `/web-design/` (AIOSEO → Redirects, or LiteSpeed/htaccess). Change the page to **Draft** only after the redirect is live.
2	P1	Merge unique content	Move the ownership promise into /web-design/ (it's already in the WD rewrite as "Full ownership of your website" and the FAQ "Do I own my website?"). Strengthen it with the 3-line list in §5.
3	P1	Update internal links	Anywhere that links to /destin-webdesign-company/ (menus, Locations hub, footer, sibling city pages, older posts) should point to /web-design/. *Search the database for "destin-webdesign-company"* (the connector's search_replace tool, or Better Search Replace).
4	P1	Sitemap	Make sure the URL drops out of the AIOSEO sitemap (it will once drafted). Resubmit the sitemap in GSC.
5	P2	Verify claims before merging	"Android and Apple web applications... secure data storage": only carry this into /web-design/ if you actively sell app development. Otherwise drop it. "26 years" → "since 1996".

6	P2	Hosting claim	"You own your hosting, we don't" conflicts with the /web-design/ rewrite's "Website Care, Hosting" H3 (marked [confirm whether you offer hosting]). Pick one model: either clients always own the hosting account (keep the promise), or you offer managed hosting in the client's name.
7	P3	Image reuse	`final-slide-11-300x192.jpg` (alt "Destin Web Design Company") can be reused on /web-design/ as a portfolio or hero image, with a descriptive alt.

2. Meta / Indexing Actions

Item	Current	Action
Status	Published, indexable	301 → /web-design/, then set to Draft (keep it, don't trash, so the content stays recoverable)
SEO title	"Destin Web Design Company – Rockstar Marketing"	n/a after the redirect. The /web-design/ title becomes "Destin Web Design Company | WordPress & Shopify | Rockstar Marketing" (WD-02), so the exact phrase lives on in the ranking page's title.
Meta description	"Destin Web Design Company Our Destin web design experts bring more than 26 years..."	n/a
H1 phrase	Destin Web Design Company	Covered by /web-design/'s H1 "Destin Web Design & Development" and title

3. Heading Structure

No new heading structure: the page is being retired. Its content maps into /web-design/ like this:

This page	Goes to /web-design/ section
H1 Destin Web Design Company	SEO title of /web-design/ (WD-02)
"26 years of experience..."	Intro ("since 1996")
Affordability / "any budget"	FAQ "How much does a website cost?"
WordPress site / e-commerce store	H3 Custom WordPress Websites · H3 Shopify & eCommerce
Web security & performance	H3 Website Care, Hosting & Speed · "What's Included" list
Ownership list (3 bullets)	New H3 "You Own Everything" under "What's Included" (§5)
Map + directions	CTA band (already in the WD rewrite)

4. Internal Linking Changes

Where	Change

Locations hub rewrite (LO-03)	Destin block: "Destin web design" → **/web-design/** (the hub audit flagged this as conditional; now confirmed)
Main menu / footer	Replace any "Destin Web Design" item pointing here with /web-design/ (*verify live*)
FWB, Santa Rosa Beach, Pensacola web design pages	"Destin web design" links → /web-design/ (handled in audits #17, #20, #23)
Blog posts / older content	Database search for `destin-webdesign-company` → replace with `web-design`
Outbound from this page	"Destin Web Design Company → /locations" disappears with the page
External	If GBP, Yelp, Facebook or directories link to this URL, update them to /web-design/ (the 301 covers it, but direct links are cleaner)

5. Content to Add on /web-design/

`/web-design/ → under "What's Included in Every Website", new <h3>` **You Own Everything**
`<p>` Unlike many web design companies, we never hold your website hostage.

- **You own your website.** The design, content and files are yours.
- **You own your domain name.** It's registered in your name, not ours.
- **You own your hosting account.** [or: "We can manage hosting for you, in an account that's always in your name."]

`optional, only if offered` **Web App Development:** We also build custom web applications that work on Android and iPhone browsers, with secure data storage.

6. Tracking & Measurement

Priority	Item	Action
P1	Redirect check	After going live: `curl -I https://rockstar-marketing.com/destin-webdesign-company/` → **301** → `/web-design/` (a single hop, no chain).
P1	GSC	URL Inspection on /web-design/ → Request indexing. Over the next 4 weeks, check that the "destin web design" queries hold or improve (baseline: 9 keywords at #2–4).
P2	404 monitor	Check AIOSEO's 404 log (or GA4 page_view on the 404 template) for any variant URLs, e.g. without the trailing slash.
P3	Annotation	Note "2026-xx-xx: /destin-webdesign-company/ 301 → /web-design/" in your reporting tool, so any traffic changes can be explained later.

7. Technical SEO

Priority	Item	Finding / Action
P1	Redirect method	Server-level or AIOSEO redirect (301, not 302, and not a meta refresh). Keep it permanently.
P1	No redirect chains	If /web-design/ is ever moved, update this redirect to point straight at the final URL.
P2	Leftover issues (for the record)	Fixed-width map iframe (1000px), 2 goo.gl links, anchor → empty /locations, possible duplicate H1. All of these go away with the redirect.
P3	Cache	Purge LiteSpeed Cache after adding the redirect, so cached copies of the old page aren't served.

8. Changelog

Date	ID	Type	Change	Status
2026-10-25	DWD-01	Decision	Consolidate into /web-design/ (resolves WD-13)	Proposed
2026-10-25	DWD-02	Add	"You Own Everything" H3 + 3 bullets on /web-design/	Proposed
2026-10-25	DWD-03	Redirect	301 /destin-webdesign-company/ → /web-design/	Proposed
2026-10-25	DWD-04	Change	Set page 12001 to Draft after the redirect; purge cache	Proposed
2026-10-25	DWD-05	Fix	Update all internal links (menu, footer, Locations, city web pages, posts) → /web-design/	Proposed
2026-10-25	DWD-06	Decision	Hosting ownership model, consistent with WD rewrite; app-dev claim only if offered	Proposed
2026-10-25	DWD-07	Tracking	curl 301 check, GSC reindex + 4-week ranking check, 404 log, annotation	Proposed
