SEO Audit & Changelog: Search Engine Optimization

URL: **https://rockstar-marketing.com/seo/** · WP ID 11538 · Builder: WPBakery · SEO plugin: All in One SEO
Audit date: 2026-10-25 · Last modified in WP: 2022-09-13 · Page 3 of 33 in the site queue

Summary. This is the core money page for the service you're best known for, but it reads like a 2015 brochure. There's no H1 in the content, the only heading is an all-caps H4, there are 0 internal links, and it never explains what's included in your SEO service. Semrush: **#2 "destin search engine optimization"**, #1 "santa rosa beach internet marketing agency", and only #54–75 for "seo destin", "seo destin fl" and "seo company destin fl" (those go to Home). The plan: make this page the definitive **"SEO services in Destin"** page (what we do, how, for whom, proof, FAQ). Home keeps "Destin SEO company" and this page takes "SEO services / search engine optimization".

Useful find: this page has your NAP: **Rockstar Marketing, 385 Harbor Blvd Suite 200, Destin, FL 32541, (850) 542-3091**. Use it to fill the [PHONE] placeholders in the Home and Services reports, and in schema site-wide.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. *Verify live* = check in the browser.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	H1 / headings	The content has no H1. The only heading is the H4 "WE ARE AN ADVANCED SEARCH ENGINE OPTIMIZATION COMPANY". The theme title "Search Engine Optimization" is probably the H1 (*verify live*). New H1: **"SEO Services in Destin, Florida"**, with a full H2/H3 outline (§3).
2	P1	No service substance	The page never says what the SEO service includes. Add H3 sections for technical SEO, keyword and on-page work, local SEO/GBP, content, link building, AI search visibility and reporting. This is the biggest ranking and conversion gap on the page.
3	P1	Intralinking	0 internal links. Add links to the city SEO pages, Social, Video, Web Design, Services hub, Clients, FAQ and Contact (§4).
4	P1	SEO title	Empty (falls back to the site default). New: **"SEO Services in Destin, FL | Rockstar Marketing"** (47).
5	P1	Brand risk	"Playboy Models" in the client list hurts trust with doctors, lawyers and other B2B prospects named in the same sentence. Remove it, or replace it with "entertainers and public figures".
6	P1	Keyword stuffing	The centered list of 29 cities includes out-of-area cities (Mobile, Tampa, Jacksonville, Nashville, Dallas, New Orleans...) with no context or links, which looks like doorway/stuffing. Replace it with a linked service-area block and one sentence about national clients.

7	P2	Outdated copy	"Google, Bing, Yahoo and MSN" (MSN Search is now Bing), "weekly webinars", and the unsupported "worldwide leader". The text never mentions Google Business Profile, AI Overviews or ChatGPT search. Rewrite (§5).
8	P2	Builder junk	Six `vc_raw_html` blocks that only contain ` ` (base64 "JTI2bmJzcCUzQg=="), used as spacers, plus 3 empty text blocks and an empty final row. Delete them all and use row padding instead.
9	P2	Meta description	123 characters, generic, and it says "Niceville" though Niceville appears nowhere on the page. Rewrite (§2).
10	P2	NAP & schema	NAP is plain text with a nonstandard phone format, "1 (850)-542-3091". Use "(850) 542-3091" as a `tel:+18505423091` link, and add `Service` (serviceType "Search Engine Optimization") + `FAQPage` + `BreadcrumbList` schema.
11	P2	Images	Logo strip: the 300px thumbnail is stretched to 600px with no alt text. The certification image `cert-300x32.jpg` has `alt=""`. Both use http://. Fix the size, add alt text, switch to https.
12	P3	Copy errors	"you've come to the right place, a place." (cut off), "help your websites ranking" → "website's", random Title Case ("New Cutting Edge"), questions without question marks.
13	P3	Proof	The Home page claims "ranked a keyword for 1 billion searches". Add 2–3 short SEO case results here (client type, keyword, position, lead increase) and a review.

About 1,250 words. Uses your real NAP. Any result figures need your own numbers; I left [placeholders] instead of inventing them.

<h1> **SEO Services in Destin, Florida**

<p> Rockstar Marketing is a Destin SEO company that gets businesses found on Google, in the map pack, and now in AI search results. We handle local and national search engine optimization from start to finish (technical fixes, content, Google Business Profile and links) and report on what matters: rankings, traffic, calls and leads. [→ /]

<p> First and foremost, we're a search marketing company that happens to build websites, not a web design shop trying its hand at SEO. And we only use ethical, Google-compliant methods, so the rankings we earn last and your site is never at risk of a penalty.

<h2> **What's Included in Our SEO Services**

<h3> **Technical SEO Audits & Fixes** **<p>** We crawl your site the way Google does and fix what holds it back: speed and Core Web Vitals, mobile usability, indexing, broken links, redirects, duplicate content and schema markup. Need a new website built for SEO? We do that too. [→ /web-design/]

<h3> **Keyword Research & On-Page Optimization** **<p>** We find the searches your customers actually use, map one primary keyword to each page, and optimize titles, headings, copy, images and internal links so every page has a clear job.

<h3> **Local SEO & Google Business Profile** **<p>** For businesses that serve a local area, the map pack is where most of the calls come from. We optimize your Google Business Profile, build consistent citations, grow reviews and create city pages, the same local SEO in Destin that keeps our own site at the top. [→ /destin-seo-company/]

<h3> **SEO Content Writing** **<p>** Service pages, location pages, blog posts and FAQs written to rank and to convert. We also optimize video through YouTube SEO and video marketing. [→ /video-marketing/]

<h3> **Link Building** **<p>** We earn links from relevant local and industry websites through partnerships, PR and content worth citing, never from link farms or private blog networks.

<h3> **AI Search & Answer Engine Optimization** **<p>** More people now get answers from Google's AI Overviews, ChatGPT and Perplexity. We structure your content, schema and brand mentions so AI tools understand your business and cite you as a source.

<h3> **Monthly Reporting** **<p>** Every month you get a clear report on keyword rankings, organic traffic, calls, form leads and the work we completed. No smoke and mirrors.

<h2> **Local SEO vs. National SEO**
<p> **Local SEO** is for businesses that serve customers in a specific area, like restaurants, contractors, attorneys, medical practices and vacation rentals on the Emerald Coast. It focuses on the map pack and "near me" searches. **National SEO** is for brands, eCommerce stores and service companies that sell across the U.S., and it focuses on organic rankings for competitive keywords. We do both, and many clients need a mix.

<h2> **Our SEO Process**

<h3> **1. Audit** <p> A full technical, content, local and competitor review.

<h3> **2. Strategy** <p> A keyword map and a 90-day plan prioritized by revenue impact.

<h3> **3. Optimize** <p> Our team carries out the fixes, content and link building every month.

<h3> **4. Measure** <p> We track rankings, traffic and conversions in GA4 and Search Console, then refine the plan.

<h2> **Why Choose Rockstar Marketing for SEO**
<p> Pro athletes, entertainers, country and rock bands, doctors, lawyers and small business owners have trusted us to get them on the first page of Google. We've ranked a keyword with more than 1 billion searches on the front page, and our own site ranks #1 in Google for "Destin SEO company". We combine SEO with social media marketing and video, so your visibility compounds across every channel. See all our digital marketing services and SEO results for our clients. [→ /social-media/, /services/, /clients/]

ADD 2–3 case results: "[Client type] – #[pos] for '[keyword]' – +[X]% leads in [N] months" + 1 Google review.

<h2> **SEO Services Across the Emerald Coast**
<p> From our Destin office we provide local SEO in Destin, Fort Walton Beach SEO, Santa Rosa Beach and 30A SEO and Pensacola SEO, and we serve Miramar Beach, Niceville, Crestview, Navarre, Gulf Breeze and Panama City Beach. We also run national SEO campaigns for clients across the Southeast and the rest of the U.S.

<h2> **SEO FAQ**

<h3> **How long does SEO take?** <p> Expect early movement in 60–90 days and significant lead growth in 4–6 months. Highly competitive keywords can take 6–12 months.

<h3> **How much do SEO services cost?** <p> It depends on your market and goals. Local campaigns start at [$X]/month. We'll give you a fixed quote after your free audit.

<h3> **Do you guarantee first-page rankings?** <p> No ethical SEO company can guarantee rankings, because Google controls them. What we guarantee is transparent work, monthly reporting and a strategy built on what has worked for our clients for years.

<h3> **Do I need to sign a long-term contract?** <p> [Your policy, e.g. month-to-month after an initial 3-month term.]

`<h3>` **Will SEO help me show up in ChatGPT and AI Overviews?** `<p>` Yes. The same signals that build Google rankings, clear content, structured data and authoritative mentions, are what AI search tools draw on. We optimize for both. More SEO questions. [→ /faq/]

NEW: SEO results chart or screenshot	Google ranking report for a Destin client	Add next to case results

6. Tracking & Measurement

Priority	Item	Action
P1	Lead events	`cta_click` (cta_location = seo_top / seo_bottom), `phone_call_click` on the tel: link, and `generate_lead` with `service = seo` passed in a hidden Quform field. That way GA4 can attribute leads to the SEO service.
P1	Search Console	Track the page in GSC: queries "destin search engine optimization", "seo services destin", "local seo destin". Set a baseline before the rewrite and compare after 28 and 90 days.
P2	Rank tracking	Add the page's keywords to a Semrush Position Tracking project (Destin, FL location) so you can see map-pack and organic movement weekly.
P2	FAQ engagement	If the FAQ is an accordion, fire `faq_open` with the question text. This shows which objections matter most to prospects.

7. Technical SEO

Priority	Item	Finding / Action
P1	Spacer HTML blocks	Delete the 6 `vc_raw_html` blocks, the 3 empty text blocks and the 2 empty rows. They add DOM weight and empty markup.

P1	H1 duplication	When you add the content H1, turn off the theme title (or set the page title to the H1). Make sure there's only one H1.
P2	Schema	`Service` {serviceType: "Search Engine Optimization", provider: #organization, areaServed: [cities]} + `FAQPage` + `BreadcrumbList`. Reference the site-wide `ProfessionalService` entity (NAP above) by @id, rather than defining it again.
P2	NAP consistency	Use the identical NAP format everywhere: site footer, GBP, Facebook, Yelp, BBB and citations. Today's format, "1 (850)-542-3091", is nonstandard.
P2	Mixed content	Two images use http://. Covered by the site-wide search-replace (Home H-13).
P3	Freshness	Last modified 2022. After the rewrite, add a visible "Updated [month year]" line (optional) and resubmit the URL in GSC.
