SEO Changelog: Contact Us

URL: https://crabislandtikitoursdestin.com/contact-crab-island-tiki-tours-destin/ | WP page ID 10 (block editor, with pasted Elementor markup) | Last modified September 8, 2026 | Audit date: October 29, 2026 | Page 19 of the site queue

Method: page content and SEO meta were pulled from WordPress through the site connector. The live URL could not be loaded from the audit environment. Test every contact link on a phone after the fixes.

1. Summary

Item	Current state
Role	Where people go to call, email or find the dock. Every error here is a lost booking.
SEO title	Contact Crab Island Tiki Tours Destin | Book Your Private Charter (65 characters)
Meta description	212 characters. Google will cut it around 155 to 160.
H1	"Contact Crab Island Tiki Tours Destin, FL" (double space and a line break inside)
Headings	The phone number, email and address are each wrapped in an H3. No H2s.
Content	Logo, contact links, Google Map embed and Contact Form 7. No text, hours or booking link.
Markup	Elementor HTML (tabs, SVG icons) pasted into a block-editor page, plus a leftover "Map-marked" text label.

2. Critical fixes

#	Issue	Fix
1	P1 Phone link dials the wrong number	The page shows 850-613-1966, but both phone links are `tel:8505436378` (850-543-6378). Anyone who taps the number calls a different line. Change both links to `tel:+18506131966` (if 613-1966 is the right number) and test on a phone.
2	P1 Email link goes to a different address	The page shows tikitoursdestin@gmail.com, but both email links open `mailto:crabislandguideservice@yahoo.com`. Decide which inbox is right and use it in both the text and the link.
3	P1 Address and map icon open "Write a review"	The address and map-marker links go to `search.google.com/local/writereview?placeid=...`, which opens a review form, not directions. Link the address to Google Maps directions: `https://www.google.com/maps/dir/?api=1&destination_place_id=ChIJe012ul5dkYgRqO0YE0-jl-0&destination=530+Harbor+Blvd+Suite+13+Destin+FL+32541`. Keep the review link as its own "Leave us a Google review" button.

4	P1 Map zoomed out to county level	The embed uses `z=10`, which shows most of Okaloosa County. Set `z=16` so the harbor and dock are visible.
5	P2 Leftover "Map-marked" text	Remove the stray text label next to the map icon.
6	P2 Contact details as headings	Phone, email and address shouldn't be H3s. Make them plain text or an icon list.

The 850-613-1966 number appears on the hub and every guide page. The 850-543-6378 number may be an old line or another business's number. Search the site and Google Business Profile for both and make sure only one is used.

3. SEO title and meta description

Field	Current	New
SEO title	Contact Crab Island Tiki Tours Destin | Book Your Private Charter	**Contact Crab Island Tiki Tours | Destin Harbor, FL** (50 characters)
Meta description	Contact Crab Island Tiki Tours Destin, FL to book your private charter or ask questions about your trip. We offer captained tiki boat tours in Destin, FL for families, groups, birthdays, and bachelorette parties.	**Call 850-613-1966, email us or visit 530 Harbor Blvd Suite #13 in Destin. 7. Images

- cropped-Crab-Island-Logo-White-Version.webp has alt "Crab Island Tiki Tours Destin". A white logo may be invisible on a white background; check it on the live page.
- Add a photo of the dock or storefront at 530 Harbor Blvd so first-timers recognize it. Alt: "Crab Island Tiki Tours dock at 530 Harbor Blvd, Destin Harbor".

8. Technical

#	Item	Action
1	P1 Rebuild cleanly	The page mixes pasted Elementor HTML into a Classic/HTML block. Rebuild it in Elementor (like the other pages) or with native blocks, so icons, links and spacing behave on mobile.
2	P1 NAP consistency	Name, address and phone must match exactly on this page, the footer, Google Business Profile, Rank Math Local SEO and the hub page.
3	P2 Schema	Rank Math page schema: ContactPage. Site-wide LocalBusiness with telephone, email, address, geo, openingHours and hasMap (the Google Maps URL for the place ID).
4	P2 Redirects	301 /contact-us/ and /contact/ to this page.
5	P3 Form spam	Add CF7's reCAPTCHA v3 or Akismet integration if spam starts.

9. Tracking

Event	Setup
generate_lead	Contact Form 7 fires a `wpcf7mailsent` browser event on successful submit. In GTM, listen for it and send a GA4 `generate_lead` event with `form_name=contact`. Mark it a key event.
phone_click	On tel: links, with `link_location=contact_page`. Only meaningful after the number is fixed.
email_click	On mailto: links.
directions_click / review_click	Separate events for the directions link and the Google review link.
Google Business Profile	Use a UTM-tagged website link in GBP (`?utm_source=google&utm_medium=organic&utm_campaign=gbp`) so map-pack visits show separately in GA4.
