Rockstar Marketing: Site-Wide SEO Audit Summary & Roadmap

Site: https://rockstar-marketing.com/ · 34 items audited (27 pages, 6 posts, 1 portfolio item) · Audit date: 2026-10-25 · All changes are **Proposed**; nothing has been changed on the live site.

The big picture. The site's authority is real: Home ranks **#1 for "destin seo company"** and /web-design/ ranks **#2–4 for nine "Destin web design" terms**. Nearly every other page underperforms. That's because of template-generated city pages, empty or placeholder pages, AI-generated copy that was never edited, and almost no internal linking. The biggest untapped demand is outside Destin and in national question keywords, at **very low difficulty**:

Do First (this week)

#	Action	Audit refs
1	**Remove fabricated testimonials, "expert" quotes and anonymous case studies** from the post "Is an seo company the Breakthrough..." (FTC risk). Remove its 9 hot-linked AutoBlogEngine images and the unrelated video. Check whether an auto-blogging tool is still publishing.	SB-01–03, SB-09
2	**noindex the empty pages**: Santa Rosa Beach Web Design (0 words), Latest (empty), Locations (1 link), the portfolio item.	SRW-01, LT-06, LO-05, PF-02
3	**Lead tracking:** create /thank-you/, redirect all Quform forms (1, 2, 3) to it with form/service/city parameters, fire GA4 `generate_lead`, add tel: links site-wide, and mark Key Events.	CU-01, CU-02, CU-10, DSM-09

4	**Update the Privacy Policy** before enabling the Meta Pixel, Ads remarketing or call tracking.	PP-01–07
5	**Fix the broken link on Home** (`http://https//…`) and run the site-wide http:// → https:// search-replace.	H-01, H-13
6	Settings → Reading → **Posts page = Latest** (the blog currently has no index page).	LT-01

8	Publish **Santa Rosa Beach SEO & Digital Marketing** and **Fort Walton Beach SEO**; add inbound links from Home, /seo/, /locations/ and /about-us/.	SRS-01–07, FWS-01–09
9	Rewrite and retarget the two SEO-buyer posts (#32 "Do You Need an SEO Company?", #33 "How to Choose an SEO Company in Destin").	SB-05–08, BD-01–10
10	Move the AI post to a new **/ai-marketing/** service page (301 from /12280-2/) and verify the "AI Certified" claims with exact certificate names and badges.	AI-01–08
11	Write **meta titles and descriptions for every page**. 12 pages had no SEO title, 21 had no focus keyphrase, and 4 shared the same description. All new values are in each report's §2.	all

12	Publish the core page rewrites: Home, Services, /seo/, /social-media/, /video-marketing/, /web-design/, About, Contact, Clients, Locations hub.	H, S, SEO, SM, VM, WD, AB, CU, CL, LO
13	**Consolidate:** 301 /destin-webdesign-company/ → /web-design/. Re-focus /destin-seo-company/ on local SEO and Google Business Profile.	DWD-01–07, DS-01
14	Rewrite the remaining city pages (FWB social/web, SRB social/web, Pensacola social, Miramar Beach), and widen social pages to "Social Media & Video" where video terms have demand.	#16–17, #19–20, #22, #24
15	Restructure the FAQ (questions → H3s, TOC, FAQPage schema as the single FAQ schema source) and add the "Working With Us" section with real pricing.	FAQ-01–12
16	**Real proof everywhere:** 3–6 case studies (portfolio type), named testimonials, founder bio and team photos, client logos with permission.	CL-04, AB-04, PF-01
17	Destin Florida page: remove or nofollow the plugin's competitor block, and replace Wikipedia text with original copy.	DF-01–02

Site-Wide Technical Fixes

- **Single H1 everywhere:** most pages have a content H1 *and* the theme title. Pick one approach and apply it site-wide.
- **Builder junk:** base64   spacer blocks, nested pasted `vc_row` markup, `data-slate-fragment` / `data-start` / chat-UI class attributes. Strip them all.
- **City-page template problems:** keyword anchors → empty /locations/, keyword anchors → retired goo.gl links, fixed 1000px map iframes, one stock image reused on 5 pages.
- **Images:** redirect or noindex attachment pages (AIOSEO); rename junk media titles ("aaaa", "2323"); write real alt text; use WebP; never upscale 300px thumbnails.
- **Schema:** one site-wide ProfessionalService/Organization entity (NAP below, hours, both phones, sameAs), then Service + BreadcrumbList per service and city page, BlogPosting on posts, FAQPage on /faq/ only.
- **Consistency:** experience = "since 1996"; NAP = **Rockstar Marketing, 385 Harbor Blvd, Suite 200, Destin, FL 32541 · (850) 542-3091 · toll-free (855) 545-3669 · info@rockstar-marketing.com · Mon–Fri 9–5**; pricing tiers from post #33 ($1–2K / $2–4K / $4–8K+ per month).
- **Performance:** LiteSpeed (WebP, lazy-load excluding the LCP image, critical CSS), one Home portfolio slider, lazy map and YouTube embeds.

Measurement Setup (one-time)

- GA4 + Search Console verified through Site Kit; GTM container; Key Events: `generate_lead`, `phone_call_click`.
- Consistent events: `cta_click` (cta_location), `select_service`, `select_location`, `faq_link_click`, `portfolio_click`, `directions_click`.
- Content group "blog"; GA4 channel "AI Assistants"; UTMs on GBP and every social bio link.
- Semrush Position Tracking projects: Destin, Fort Walton Beach, Santa Rosa Beach, Pensacola (local) + national question/AI keywords.
- Meta Pixel + CAPI and call tracking, *after* the privacy policy update.
