SEO Audit & Changelog: Fort Walton Beach SEO Company

Audit date: 2026-10-25 · Created / modified: 2023-01-07 · Page 15 of 33 in the site queue

Summary. This is the biggest quick-win opportunity found so far. Semrush: **"fort walton beach seo company" = 260 searches/mo, KD 7** (very easy). "fort walton beach seo" = 70 (KD 31), "fort walton beach internet marketing" = 70 (KD 2), "local seo company in fort walton beach fl" = 140. The site already shows up for these, but through the **wrong pages**: Home ranks #15 and #11, /destin-florida/ ranks #42 for "fort walton beach search engine optimization", and this dedicated page doesn't appear in the top 100.

Why: it's the same January 2023 template as /destin-seo-company/. About 400 words of generic AI copy with no Fort Walton Beach specifics, the city name used only as a keyword ("Fort Walton Beach SEO Company's tested and proven Local SEO"), an anchor to the empty /locations/ page, a goo.gl link whose anchor is the keyword, a stock image with keyword alt text, and a fixed-width map. A genuinely local page with internal links from Home, /seo/ and Locations should be able to reach the top 3 for a KD-7 term.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. *Verify live* = check in the browser. Local references in the rewrite need your fact-check.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Generic copy	About 400 words with zero Fort Walton Beach facts. Rewrite as a real local page, about 1,100 words (§5): the local market (Okaloosa Island tourism, Eglin and Hurlburt military families, downtown), industries, proof, FAQ.
2	P1	Wrong pages ranking	Home (#15, #11) and /destin-florida/ (#42) rank for FWB terms. Add links **to** this page from Home ("Fort Walton Beach SEO", already in the Home rewrite), /seo/, /locations/ and /destin-seo-company/. Remove FWB SEO phrasing from /destin-florida/ in its audit (#25).
3	P1	Bad internal links	"Fort Walton Beach SEO Company" → /locations (empty page) and "Fort Walton Beach SEO Company's" → goo.gl map. Replace with the plan in §4. Never use the target keyword as the anchor of an off-page Maps link.
4	P1	Duplicate H1	The content H1 plus the theme title (*verify*). Keep one: **"Fort Walton Beach SEO Company"** (exact match, KD 7).
5	P1	SEO title	"Fort Walton Beach SEO Company – Rockstar Marketing" is OK. Better: **"Fort Walton Beach SEO Company | Local SEO & Google Maps"** (55).

6	P2	Grammar	"team of... professionals provide", "will personalize your local search engine optimization strategies are designed", "leaving no stone unturned so that top-tier results may be achieved". All replaced in the rewrite.
7	P2	No CTA, NAP or proof	Add CTA buttons, the phone number, local proof and a service-area note (you serve FWB from the Destin office; don't imply an FWB address).
8	P2	Image	Stock `168339947_s-300x200.jpg` shown at 347×231 (upscaled), alt = keyword. Use a real FWB photo (Okaloosa Island pier, downtown) or a map-pack screenshot, with a descriptive alt.
9	P2	Map + goo.gl	Fixed 1000px iframe, 2 goo.gl links. Use a responsive lazy iframe and full Maps URLs.
10	P2	Meta description	Truncated (158 chars, ends with "help your business"). Rewrite (§2).
11	P3	Sibling coverage	Add "fort walton beach internet marketing" (70, KD 2) and "local seo company in fort walton beach fl" (140) as secondary phrases in the copy, plus FWB video marketing (Home ranks #12 for "fort walton beach video marketing", 70/mo): mention it and link to /video-marketing/.

`<h2>` **SEO for Fort Walton Beach's Two Markets: Visitors & Year-Round Locals**
`<p>` Fort Walton Beach businesses sell to two very different audiences. Visitors on Okaloosa Island search on their phones for restaurants, rentals, charters and things to do, usually the same day. Good Fort Walton Beach internet marketing targets both, with different keywords, pages and Google Business Profile strategies for each.

P1	Lead events	`cta_click` (fwb_seo_top / bottom), `phone_call_click`, `generate_lead` service=seo city=fort_walton_beach (hidden field or ?city= on the contact link: `/contact-us/?city=fwb&service=seo`).
P2	Position tracking	Add the 6 FWB keywords to Semrush Position Tracking with location Fort Walton Beach, FL.
P3	directions_click	On the "Get directions" link.

7. Technical SEO

Priority	Item	Finding / Action
P1	Single H1	Content H1 or theme title, not both.
P2	Schema	`Service` {serviceType "Search Engine Optimization", areaServed {City "Fort Walton Beach"}, provider @id} + `BreadcrumbList` (Home › Locations › Fort Walton Beach SEO). Don't add a LocalBusiness with an FWB address; you don't have one there.
P2	Map + links	Responsive, lazy iframe with title; replace 2 goo.gl links.
P2	Image	Real local photo, WebP, about 800px, alt text, width/height set; don't upscale a 300px thumbnail.
P3	Template uniqueness	The FWB/SRB/Pensacola SEO pages must not share sentences. Run a similarity check (e.g. Siteliner) after rewriting all three.
