1. Summary

Area	Current state	Priority
Wrong booking system	"Book Your Trip Now" links to `reservations.waverez.com/beachpleasecharters/`, an **old booking platform under another brand name**. Every other page books through FareHarbor. Visitors ready to book here may hit a dead or outdated system.	**Critical**
Form	Only Name, Email and Message fields. There's no phone, tour, date or group-size field, so every inquiry needs a follow-up. VERIFY that submissions reach `res4bikkinibottom@gmail.com`. The form HTML carries a cached token from March 2025, so check that LiteSpeed isn't serving a stale form (WPForms needs the page excluded from cache, or ESI).	**High**
Missing info	No email address, no hours, no parking directions, no Suite number, no social links. The departure and parking instructions (the main reason people visit a contact page for a boat) live only on the FAQ and Crab Island pages.	**High**
Headings	H1 "Contact Us"; H2 "Bikkini Bottom Boat Charter"; labels in H6 ("For Reservations", "Or Call", "Our Location"); the phone number is an H3.	**Medium**
Rank Math	Focus keyword is the bare brand. The meta is generic. Semrush shows the page ranking only for "bikkini" (#49).	**Medium**
NAP consistency	The footer map embed uses "530 Harbor Blvd **Suite #16**"; this page and the footer text omit the suite. Must match Google Business Profile exactly.	**Medium**
Freshness	Last modified 2025-03-26.	**Low**

2. Keyword targeting

Keyword	Vol.	Now	Use
530 harbor blvd destin fl	140	#15 (Crab Island page)	**Primary**: people looking up the dock address. Use it in the H2 and the first paragraph.

bikkini bottom boat charters (+ phone / directions / contact)	brand	—	Title + H1
bikini bottom boat destin (misspelling)	40	#1 homepage	No action; covered by schema `alternateName`
destin harbor boat tours parking	low	—	Parking H2

3. Rank Math / meta changes

Focus keyword	Bikkini Bottom Boat Charters	**530 harbor blvd destin fl**; secondary: bikkini bottom boat charters contact
WP title	Contact Bikkini Bottom Boat Charter	**Contact**

H2 Planning a Group Trip?

We host family reunions, company outings, birthdays and bachelorette parties for up to 49 guests. Read public tour vs. private charter or call for group rates. Have a quick question? Check our FAQs.

6. Internal linking

Anchor	Target
bachelorette parties	/best-crab-island-tour-for-bachelorette-parties-large-groups/
public tour vs. private charter	/public-crab-island-tour-vs-private-charter-which-should-you-book/
FAQs	/faqs/ (or `/faqs/#parking` next to the parking section)
Crab Island tours / dolphin cruise / sunset cruise (intro)	Service pages 599 / 1457 / 672 (link the trip names in the intro)
Inbound: "Get directions", "Full directions"	From pages 1–5 (already in those changelogs) plus the footer "Contact Us" (fix the wrong slug)

7. Technical fixes

Issue	Fix	Priority
WaveRez booking link	Replace `https://reservations.waverez.com/beachpleasecharters/` with `https://fareharbor.com/embeds/book/bikkinibottomboat/?full-items=yes`. Search the whole site and Elementor templates for "waverez" (site connector `search_replace`, dry run first). If the WaveRez account is still live, shut it down or point it to FareHarbor.	**Critical**
Form fields	WPForms #74: add Phone, Tour (dropdown), Preferred date (Date field), Group size (Number). Set the confirmation message to "Thanks! We'll reply within [24h]. Need us sooner? Call (850) 420-2540."	**High**
Form delivery	VERIFY with a live test: notifications to res4bikkinibottom@gmail.com. Install WP Mail SMTP (or Hostinger SMTP) so Gmail doesn't drop wp_mail messages. WPForms Lite doesn't store entries, so the email is the only record.	**High**
Caching	LiteSpeed Cache → Excludes → URI: add `/contact-bikkini-bottom-boat-charters/`, or enable ESI for the form so the nonce/token isn't stale.	**Medium**

Spam	Turn on WPForms anti-spam (built-in token + Cloudflare Turnstile, free) rather than reCAPTCHA v2 (heavier).	**Low**
NAP	Decide on one address string and use it on this page, the footer text, the footer map, schema and the Google Business Profile. Recommended: "530 Harbor Blvd, Suite 16, Destin, FL 32541" if GBP uses the suite; otherwise drop it from the map query.	**Medium**
Map	Use the place-ID based embed (Share → Embed in Google Maps) so the map pin shows the business name and reviews, not just an address.	**Low**
Image	Add a photo of the dock or check-in booth (alt **"Bikkini Bottom check-in booth at 530 Harbor Blvd, Destin Harbor"**). First-timers can find the boat more easily, and it doubles as the OG image.	**Low**

7a. Schema

```
{
 "@context": "https://schema.org", "@type": "ContactPage",
 "url": "https://bikkinibottomboat.com/contact-bikkini-bottom-boat-charters/",
 "name": "Contact Bikkini Bottom Boat Charters",
 "about": {"@id": "https://bikkinibottomboat.com/#business"},
 "mainEntity": {"@id": "https://bikkinibottomboat.com/#business"}
}
```

Add `openingHoursSpecification` to the LocalBusiness entity (homepage schema) once hours are confirmed, plus `contactPoint` {telephone, contactType: "reservations", areaServed: "US"}.

8. Tracking

Item	Setup
Form submission	GTM: WPForms fires the `wpformsAjaxSubmitSuccess` JS event. Use a custom HTML listener that pushes `generate_lead` with `form_id`=74 and `tour_interest` (dropdown value). Mark it as a GA4 key event. Import it into Google Ads as a secondary conversion.
Calls / email / map	`phone_click`, `email_click`, `directions_click` (from homepage changelog) with `link_location` = contact_page.
Booking	`begin_checkout` on the new FareHarbor button.
Lead source	WPForms hidden fields: map `page_url` / `url_referer` to `{page_url}` / `{url_referer}` smart tags. The current values are literal placeholders (`http://page_url`), so leads arrive without a source.
Call tracking (optional)	A dynamic number-insertion tool (e.g. CallRail) would show which channel drives phone bookings, a major channel for charters. Keep the main number in schema and the footer for NAP consistency.
