SEO Changelog: High Tide vs. Low Tide at Crab Island (Blog Post)

URL: https://crabislandtikitoursdestin.com/high-tide-vs-low-tide-at-crab-island/ | WP post ID 924 (Elementor) | Last modified September 5, 2026 | Audit date: October 29, 2026 | Page 24 of the site queue

Method: content, headings, links and SEO meta were pulled from WordPress through the site connector. The live URL could not be loaded from the audit environment.

1. Summary

Item	Current state
Role	Explains how tide affects water clarity at Crab Island and how to check the tide. Targets "crab island tide", "crab island high tide" and "best tide for crab island".
SEO title	" High Tide vs. Low Tide at Crab Island: What's the Difference?" (leading space, 62 characters)
Meta description	142 characters. Keep.
Body copy	About 1,000 words. One of the most useful posts on the site: it explains why incoming Gulf water is clearer and warns readers to pick the Destin tide station, not another "Crab Island".
Category	Uncategorized
Internal links	1 blog link (to post 910, being redirected) and the Charter page.
Relation to the depth guide	This post covers clarity and timing; the How Deep guide covers depth. Good split. They just need to link to each other.

2. Critical fixes

#	Issue	Fix
1	P1 Leading space in SEO title	The Rank Math title starts with a space. Replace with the new title in section 3.
2	P1 Link to a post being redirected	"Best Time of Day to Visit Crab Island" links to post 910. Point it to /about-crab-island/best-time-to-visit-crab-island/.
3	P1 No link to the depth guide	"The water over portions of the sandbar can also become shallower as the tide drops" should link to /about-crab-island/how-deep-is-crab-island/, and the depth guide should link back here.
4	P2 Add a primary source	US Harbors is fine for planning, but add NOAA Tides & Currents (the government source the predictions come from) as a second link. It strengthens the page for Google and AI answers.

This post supports the clear-water point suggested for the Best Time guide (incoming Gulf water is clearer). Use the same wording on both pages.

3. SEO title and meta description

Field	Current	New
SEO title	" High Tide vs. Low Tide at Crab Island: What's the Difference?"	**Crab Island Tides: High vs Low Tide and When the Water Is Clearest** (66 characters; Google may trim the end) or **Crab Island High Tide vs Low Tide: Which Is Better?** (51 characters)
Meta description	Learn how high tide vs. low tide affects Crab Island in Destin, Florida, including water clarity, and how to check the tides before your trip.	Keep.
Category	Uncategorized	Crab Island Tips

4. Heading structure

Current

```
H1  High Tide vs. Low Tide at Crab Island: What's the Difference?   (body; check for a second theme
H1)
H2  Why Do the Tides Matter at Crab Island?
H2  What Is Crab Island Like at High Tide?
H2  What Is Crab Island Like at Low Tide?
H2  How to Check the Tide for Crab Island
H2  How Do You Read a Crab Island Tide Chart?
H2  Does High Tide Always Mean Clear Blue Water?
H2  Should You Only Book a Crab Island Trip During High Tide?
H2  Experience Crab Island on a Private Tiki Boat
H3  Ready for your Crab Island day? ...
```

New

```

    (2-sentence quick answer)
H2  Why Do the Tides Matter at Crab Island?
H2  High Tide vs Low Tide at a Glance              (new table)
H2  What Is Crab Island Like at High Tide?
H2  What Is Crab Island Like at Low Tide?
H2  How to Check the Tide for Crab Island
H2  How to Read a Crab Island Tide Chart
H2  Does High Tide Always Mean Clear Water?
H2  Should You Only Book During High Tide?
H2  Crab Island Tide FAQs                            (new)
H2  Experience Crab Island on a Private Tiki Boat
```

5. Content rewrites (paste-ready)

Quick answer (new, under H1)

> **Short answer:** The incoming tide, in the hours leading up to high tide, usually brings the clearest water to Crab Island because clean Gulf water flows in through the East Pass. On a falling tide, darker bay water moves through and the sandbar gets shallower. Wind, rain and weather matter too, so no tide guarantees perfect water.

H2: High Tide vs Low Tide at a Glance (new)

	Incoming / high tide	Outgoing / low tide
Water source	Gulf water through the East Pass	Choctawhatchee Bay water
Clarity	Usually clearer, turquoise to emerald	Often darker or murkier
Depth on the sandbar	Deeper, better for floating	Shallower, more room for small kids to stand (depth guide)
Good for	Photos, clear-water swimming	Families with young children, wading

New FAQs

> **How many high tides does Destin get a day?** *(Check the NOAA chart for the Destin station. Much of the northern Gulf coast often has one high and one low tide a day rather than two, which makes timing easier. Confirm before publishing.)*
>
> **Can I ask the captain to time our trip around the tide?** Yes. Mention it when you book, and we'll suggest a start time that fits the tide if the schedule allows.
>
> **Does the tide affect how deep the water is?** Yes, the sandbar is shallower at low tide and deeper at high tide. See how deep the water is at Crab Island.

Wording fixes

- Two em dashes (after "No" in "No, and this is important" and in "Search for Destin, Florida, not just Crab Island"). Swap for a period or comma if you want a plainer style.
- "Check out our other blog:" to "For timing by hour and season, see the best time to visit Crab Island."
- The H3 CTA "Ready for your Crab Island day? Choose your charter..." can be a styled paragraph instead of a heading.

6. Internal linking

Anchor text	Target	Placement
the best time to visit Crab Island	/about-crab-island/best-time-to-visit-crab-island/	Replace post 910 link

shallower as the tide drops	/about-crab-island/how-deep-is-crab-island/	Low Tide section
near Destin's East Pass	/about-crab-island/where-is-crab-island/	Why Tides Matter
a submerged sandbar	/about-crab-island/what-is-crab-island-destin/	Why Tides Matter
families with young children	/is-crab-island-family-friendly/	At a Glance table
private sunset cruise	/charters/private-sunset-cruise-in-destin-fl/	Should You Only Book... (evening alternative)
Learn More (existing)	/charters/private-crab-island-charter-destin/	Keep

External: keep US Harbors; add NOAA Tides & Currents for the Destin East Pass station.

7. Images

File	Action
Another-random-tiki-pic-Large.jpeg (featured)	Rename and add alt describing the photo. Better: use a photo that shows clear vs darker water, which suits the topic.
(new)	A screenshot of the Destin tide chart with the high and low points labeled would make the "how to read" section much easier to follow.

8. Technical

#	Item	Action
1	P2 Duplicate H1 check	Same as the family post: check whether the theme also prints the title as H1.
2	P2 Schema	BlogPosting with author and dateModified; FAQPage for the new FAQs.
3	P3 Freshness	Add "Updated (month year)" and review each spring before peak season.

9. Tracking

Event	Setup
outbound_click	Clicks to US Harbors and NOAA. Shows how many readers are actively planning a date.
book_now_click	`button_location=blog_tides`.
Search Console	Watch "crab island tide" and "crab island tide chart". If "tide chart" grows, consider a simple page that embeds the current week's tides.

10. Changelog

#	Area	Change	Priority	Status
1	Meta	Fix leading space; new SEO title	P1	To do
2	Links	Repoint post 910 link; add depth guide link (and reverse link)	P1	To do
3	Content	Quick answer, at-a-glance table, 3 FAQs	P2	To do
4	Links	Add 5 more contextual links; add NOAA source	P2	To do
5	Headings	One H1; CTA H3 to paragraph; new H2s	P2	To do
6	Technical	Category "Crab Island Tips"; BlogPosting and FAQPage schema; updated date	P2	To do
7	Images	Topic-relevant featured image; labeled tide chart screenshot	P3	To do
8	Tracking	outbound_click to tide sites; book_now_click	P3	To do
