Audit date: 2026-10-25 · Published / modified: 2023-03-24 · Item 29 of 34 in the site queue

Summary. This is a good topic for a social media agency, but the execution falls short. It's about 750 words of vague AI text, with several sentences that don't make sense ("steer them away from posts that have promotional links in them", "optimizing feature pages that belong directly to accounts that are managed through channels like Instagram"). It leaves out the things that actually drive Instagram sales: a professional account, bio and link-in-bio, Reels, Story link stickers, DMs, product tags, ads, and UTM tracking. The title is 75 characters long and awkward ("Instagram Account Step-by-Step Guide..."). Keyword options (Semrush US): **"instagram marketing for small business" = 170/mo, KD 36** (best fit), "instagram marketing tips" = 480 (KD 40), "how to get more sales on instagram" = 20 (KD 0). "How to use instagram for business" (1,300, KD 57) and "instagram for business" (2,400, KD 72) are too competitive for now. Also: two H1s, a keyword-stuffed image alt, the single internal link uses the anchor "brands" → Home, no meta, Uncategorized.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US. Instagram features change often; check them in the app before publishing.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Keyword & title	Target **"Instagram marketing for small business"**. New title and H1: "Instagram Marketing for Small Business: 10 Steps to More Sales".
2	P1	Nonsense sentences	Rewrite the whole post (§5). Unclear AI text hurts trust in an agency that sells content writing.
3	P1	Missing tactics	Add: professional account setup, bio and links, Reels, Stories and link stickers, DMs, product tags/Shop, collabs, ads, UTM tracking.
4	P1	Two H1s	Remove the content H1 (it duplicates the theme's post title).
5	P1	Meta	No SEO title, description or keyphrase (§2).
6	P1	Intralinking	The only link is "brands" → Home. Link to /social-media/ (primary), the city social pages, the YouTube post, /faq/ and a CTA (§4).
7	P2	Image	Alt "Instagram Social Media Company Destin" → "Instagram business profile on a phone showing a shoppable post". The 1024px file is displayed at 535px; use the 768px size or WebP. Set it as the featured image.

8	P2	Hashtag advice	The post presents hashtags as the main reach lever. Instagram has said they play a small role now. Recommend 3–5 relevant hashtags and focus on Reels, keywords in captions and profile SEO.
9	P2	Category / author	Uncategorized → Social Media; named author + bio.
10	P3	Proof	Add one real example: your fan page results (35,000 fans in 24 hours, 100M reach) or a client's Instagram sales result.
11	P3	Slug	Long (82 characters). Optional: /instagram-marketing-small-business/ + 301. Low priority; the page has no measurable rankings, so a change would be low-risk.

<h1> **Instagram Marketing for Small Business: 10 Steps to More Sales**

<p> Likes are nice, but they don't pay the bills. If you want Instagram to bring you customers (calls, bookings, orders and walk-ins), you need a profile built to convert and content that moves people from scrolling to buying. Here's the step-by-step approach we use for our clients. (Want us to run it for you? See our social media marketing services.)

<h2> **Step 1: Switch to a Professional Account**
<p> In Settings, switch to a professional (Business) account. You'll unlock Insights, contact buttons (Call, Email, Directions, Book), ads, and the ability to connect your Facebook Page and Meta Business Suite for one inbox.

<h2> **Step 2: Optimize Your Profile and Bio for Search**
<p> Instagram search reads your name field and bio, so include what you do and where: "Joe's Charters | Destin Fishing Trips". In your bio, say who you help, add a clear call to action, and use the multiple-link feature to send people to your booking page, best offer and a website built to convert. Add your address and category so you show up for local searches.

<h2> **Step 3: Audit What's Already Working**
<p> Open Insights and review the last 60–90 days. Don't stop at likes: sort posts by **shares, saves, profile visits and website taps**. Those are the signals that lead to sales. Note the format, topic and hook of your top 5 posts, and make more like them.

<h2> **Step 4: Build a Content Plan Around Buying Questions**
<p> Every post should do one job: attract, build trust or sell. A simple weekly mix:

- **Attract:** tips, trends, local highlights (2 posts)
- **Trust:** behind-the-scenes, team, reviews and before/afters (2 posts)
- **Sell:** offers, new products, "book now" and limited availability (1 post)

<h2> **Step 5: Lead With Reels**
<p> Reels get shown to people who don't follow you yet, so they're your best tool for reaching new customers. Hook viewers in the first 2 seconds, keep it under 30–60 seconds, add captions, and end with a reason to visit your profile. Repurpose clips from longer videos too. See our guide to starting a YouTube channel for your business and our short-form video services.

<h2> **Step 6: Use Stories to Drive Clicks**
<p> Stories reach your warmest followers. Use the **link sticker** to send people straight to a product or booking page, and polls, quizzes and question boxes to start conversations. Save your best Stories as Highlights: Reviews, Menu/Services, Pricing, How to Book.

<h2> **Step 7: Write Captions That Sell (Without Being Pushy)**
<p> Open with the benefit or a question, keep the main point near the top, use a keyword or two naturally (captions are searchable), and close with *one* clear call to action: "Tap the link in our bio to book", "DM us 'PRICE' for a quote", or "Save this for your next trip".

<h2> **Step 8: Turn DMs Into Sales**
<p> Many Instagram sales happen in direct messages. Reply within an hour during business hours, set up saved replies and FAQs, and use keyword prompts ("Comment 'INFO' and we'll send you details") to start conversations you can close.

<h2> **Step 9: Expand Reach With Collabs, Hashtags and Ads**

<h3> **Collabs & Local Influencers** <p> Use Collab posts with complementary local businesses and creators whose audience matches yours. One post appears on both profiles. (Our Destin social media company team uses large fan pages to cross-promote client content to millions of people.)

<h3> **Hashtags & Keywords** <p> Hashtags matter less than they used to. Use 3–5 specific ones (#destinrestaurants, not #food) and put more effort into keywords in your captions and profile.

<h3> **Instagram Ads** <p> Boost your best-performing Reels, or run ads in Meta Ads Manager targeted by location and interest, with retargeting for people who visited your website or engaged with your profile.

<h2> **Step 10: Track Conversions, Not Just Likes**
<p> Add UTM tags to every link (for example `?utm_source=instagram&utm_medium=social&utm_campaign=bio`) so Google Analytics shows which visits, calls and sales came from Instagram. Install the Meta Pixel on your website to measure purchases and leads from ads. Review the results monthly and do more of what converts.

<h2> **FAQ**

<h3> **How often should a small business post on Instagram?** <p> 3–5 feed posts or Reels a week plus daily Stories is a strong, sustainable pace. Consistency beats volume.

<h3> **Do I need a lot of followers to get sales?** <p> No. A few thousand local, engaged followers often outsell a large untargeted audience.

<h3> **Is Instagram worth it for service businesses?** <p> Yes. Showing your work, team and reviews builds the trust that gets people to call. More social media questions.
