SEO Audit & Changelog: "Destin Artificial Intelligence Digital Marketing Company"

URL: **https://rockstar-marketing.com/12280-2/** · Post ID 12280 · WPBakery (inside a post) · Category: Uncategorized
Audit date: 2026-10-25 · Published 2025-01-25 · Item 31 of 34 in the site queue

Summary. This is the site's only content about its **"AI Certified"** positioning, which Home mentions twice. It's built as a blog post with a **broken URL**: `/12280-2/` (WordPress used the post ID because the post was first saved without a title). The topic is commercial (a service, not an article), so it belongs as a **service page**. There's real national demand here: Semrush US shows **"ai seo services" 4,400/mo (KD 34)**, "ai seo agency" 4,400 (KD 36), "ai marketing agency" 3,600 (KD 49), "ai marketing for small business" 260 (KD 27), but "destin ai" only 20.

Content: about 1,100 words that list tools rather than explain your service. It has **0 internal links**, typos ("hi searched", "perspective markets", run-on fragments), outdated tool names (Wix ADI), keyword-stuffed image alts on a UUID-named file, and no meta. It also lists five certifications ("Google AI Certified, Meta AI Certified, Amazon AI Certified, IBM AI Certified, Microsoft AI Certified") without saying which certificates or showing proof. Most important, it **barely mentions AI search** (Google AI Overviews, ChatGPT, Perplexity), the AI service clients now actually ask for and the one your FAQ already promotes.

Method note: the live site can't be reached from the audit environment. Data comes from WordPress (connector), AIOSEO and Semrush US.

1. Priority Fix List

#	Priority	Area	Issue → Fix
1	P1	Broken URL	/12280-2/ → recreate as a **page** at **/ai-marketing/** (or /ai-seo/) and 301 /12280-2/ → /ai-marketing/. The post has no rankings, so this is low risk.
2	P1	Post vs page	A service offering shouldn't live in the blog feed (dated, Uncategorized, author archive). Move it to a page, add it to the Services menu and /services/, and link it from Home's "AI Certified" claim.
3	P1	Keyword	Focus **"AI SEO services"** (4,400, KD 34). Secondary: AI marketing agency, AI marketing for small business, Destin AI marketing. H1: "AI Marketing & AI SEO Services".
4	P1	Missing AI search	Add a lead section on **AI search optimization** (AI Overviews, ChatGPT, Gemini, Perplexity): structured data, entity and NAP consistency, Q&A content, citations. Link /faq/ (GEO answer) and /seo/.
5	P1	Certifications	Name each one exactly (e.g. "Google AI Essentials, 2025", "IBM AI Fundamentals"), show badges, and link to verification pages where possible. Otherwise reword to "trained in...". Unverifiable claims hurt trust (and Home relies on them).

6	P1	0 internal links	Add ~12 links to the service pages, /faq/, /clients/ and Contact (§4).
7	P1	Meta	No SEO title, description or keyphrase (§2).
8	P2	Tool-list content	Sections read like a list of tools (Surfer, Clearscope, Screaming Frog, Hootsuite, Wix ADI, Adobe Sensei, Jasper). Reframe each around *what you do for the client* and *the result*. Mention tools briefly. Wix ADI has been replaced by Wix's AI website builder, so drop it.
9	P2	Typos & fragments	"hi searched" → high-volume; "perspective markets" → respective markets; "technical SEO Audits Precision recommendations…" (run-on); "Predictive analytics—…—have Heatmaps driven…" (broken sentence); "calls-to- action"; "Blogging is still pillar"; "Rockstar marketing" capitalization.
10	P2	Images	`8636ba06-…-300x300.jpg` (alt "Destin AI") shown upscaled to 396px; `818630593785914150-200x300.png` (alt "Destin AI Social Media Company"). Rename the files descriptively, write real alt text, use larger source sizes.
11	P2	Human oversight	Add how you keep AI content accurate and on-brand (human editing, fact-checks). Google's guidance focuses on helpful content, however it's produced, and clients want that reassurance.
12	P3	No H1 in content	Fine for a page (theme title = H1). Just make sure there's exactly one.

`<h1>` **AI Marketing & AI SEO Services**

`<p>` Artificial intelligence has changed how customers find businesses, and how the best marketing gets done. Rockstar Marketing, based in Destin, Florida, uses AI across SEO, content, social media, ads and websites to get our clients better results faster, and we optimize your business to show up in the new AI search tools your customers are already using.

`<h2>` **Get Found in AI Search: Google AI Overviews, ChatGPT & Perplexity**
`<p>` More and more searches end with an AI-written answer instead of ten blue links. If your business isn't one of the sources those answers cite, you're invisible to a growing share of customers. Our AI search optimization (also called GEO, generative engine optimization) makes your business easy for AI to understand and recommend:

- Clear, question-and-answer content written for how people ask AI tools
- Structured data (schema) describing your business, services, locations and reviews
- Consistent name, address and phone across Google, Apple, Bing, Yelp and directories
- Mentions and citations on trusted local and industry sites
- Monitoring how ChatGPT, Gemini, Perplexity and Google describe your brand

`<h2>` **Our AI Marketing Services**

`<h3>` **AI-Powered SEO** `<p>` We use AI tools to analyze thousands of keywords, competitor pages and search intent in hours instead of weeks, then our team turns that into a clear plan, technical fixes and content that ranks. It's the same approach behind our #1 Google ranking as a Destin SEO company.

`<h3>` **AI Content & Blogging (Human-Edited)** `<p>` AI speeds up research, outlines and first drafts. Our writers then fact-check, add real expertise and local detail, and edit for your brand voice. You get more content, published consistently, without the generic "AI tone".

`<h3>` **AI for Social Media & Ads** `<p>` AI helps us find the best posting times, generate creative variations, track brand sentiment and use Meta's and Google's AI ad targeting and bidding, while our team sets strategy and budgets. See our social media marketing.

`<h3>` **AI for Google Business Profiles & Reviews** `<p>` We use AI to analyze local competitors, find missing categories and services, and draft personalized review responses that a human approves. Part of our Google Business Profile optimization.

`<h3>` **AI Chatbots & Smarter Websites** `<p>` AI chat assistants that answer questions and capture leads 24/7, plus AI-assisted design and testing to improve conversions. Built into our web design.

`<h3>` **AI Video Production** `<p>` AI-assisted scripting, editing, captions and short-form clipping that make video marketing faster and more affordable.

`<h2>` **How We Use AI (and Where Humans Stay in Charge)**
`<p>` AI is a powerful tool, not a replacement for judgment. Every strategy, piece of content and campaign is planned, reviewed and approved by our team. We never publish unedited AI content, we fact-check claims, and we keep your data private.

`<h2>` **Our AI Training & Certifications**
`<p>` Our team has completed AI training from Google, Meta, Amazon, IBM and Microsoft, including [exact certificate names and years]. `badges` [linked to verification pages]. Meet our team.

`<h2>` **AI Marketing for Small Businesses on the Emerald Coast**
`<p>` You don't need a big budget to benefit from AI. We bring AI-powered marketing to restaurants, charters, rentals, contractors and professional firms in Destin, Fort Walton Beach, Santa Rosa Beach, Pensacola and nationwide. See our client results.

`<h2>` **AI Marketing FAQ**

`<h3>` **Will AI-written content hurt my Google rankings?** `<p>` Google rewards helpful, accurate content however it's produced. Low-quality mass-produced content is the risk, which is why every piece we publish is human-edited.

`<h3>` **Can you get my business mentioned in ChatGPT?** `<p>` No one can guarantee it, but we improve the signals AI tools rely on (clear content, structured data, consistent listings and trusted mentions), which raises your chances of being cited.

`<h3>` **Is AI marketing expensive?** `<p>` AI usually *lowers* costs by speeding up research and production. [AI visibility audits from $X; ongoing plans from $Y/month.]

`<h3>` **Do you replace my team with AI?** `<p>` No. We use AI to make marketing faster and smarter, with people making the decisions. More answers in our AI marketing FAQ.

6. Tracking & Measurement

Priority	Item	Action
P1	Leads	service=ai → `generate_lead`; `cta_click` (ai_top / bottom); `phone_call_click`.

P1	AI referrals	GA4 "AI Assistants" channel (FAQ-11): sessions from chatgpt.com, perplexity.ai, gemini.google.com, copilot.microsoft.com. This page should be your benchmark.
P2	Position tracking	Add "ai seo services", "ai seo agency", "ai marketing for small business" (national) + "ai marketing destin" (local).
P2	Brand-in-AI check	Monthly: ask ChatGPT, Gemini and Perplexity "best SEO company in Destin FL" and log whether Rockstar is cited (a simple sheet). Semrush's AI visibility tools can automate this.

7. Technical SEO

Priority	Item	Finding / Action
P1	Move + 301	Create the page /ai-marketing/, copy the content in, 301 /12280-2/ → /ai-marketing/, delete or draft the post, remove it from the post sitemap.
P2	Schema	`Service` (serviceType "AI Marketing / AI SEO", provider @id, areaServed US + Emerald Coast) + `BreadcrumbList`. Optionally add `hasCredential` on the founder Person for verifiable certificates.
P2	Images	Rename (ai-marketing-destin.webp), descriptive alt, proper source sizes (no upscaling).
P3	llms.txt	List this page in /llms.txt (FAQ-12), since it's the one about AI visibility.
